Education in Southern Africa Clive Harber, 2013-09-12 *Education in Southern Africa* is a comprehensive critical reference guide to education in the region. With chapters written by an international team of leading regional education experts, the book explores the education systems of each country in the region. With chapters covering Botswana, Lesotho, Madagascar, Mozambique, Namibia, South Africa, Swaziland, and Zimbabwe, the book critically examines the development of education provision in each country as well as local and global contexts. Including a comparative introduction to the issues facing education in the region as a whole and guides to available online datasets, this handbook will be an essential reference for researchers, scholars, international agencies, and policy makers at all levels. **National Assembly Debates (Hansard).**

Mulomole, Media Institute of Southern Africa, 2012 **Schooling in Sub-Saharan Africa** Clive Harber, 2017-07-12 This book is a comprehensive text for those interested in formal education in sub-Saharan Africa. It provides a thought-provoking overview of the key educational ideas, themes, and issues facing schooling in Africa today by drawing on a wide literature to examine evidence concerning both educational policy and the working realities of primary and secondary schools in Africa. Based on the author's forty years of experience in researching and publishing on education in Africa, it takes a balanced but critical approach to analysing education in Africa and discusses both positive and negative patterns across the region as well as identifying differences between and within countries. The book examines major questions of educational provision, structure, content, and process but does so in a way that raises challenging questions about gender inequality, violence, authoritarianism, and democracy in education as well as the fundamental question of whether education is achieving its desired outcomes. It will be of great interest to students and researchers working in the fields of comparative and international education, education and international development, African education, African studies, and development studies.
