have manifested in your life so far This includes areas such as Financial Your career money you have in the bank investments savings etc Relationships Whether you are married or single Health and wellbeing Spiritual Do you feel that something is missing The art of manifestation is learning how to gain control over what you create in your life In order to do this you must first accept the reality or at least the possibility that you can in fact control the manifestation process Many people go through life feeling as though they were the victims of fate They may not call it fate some blame their circumstances on luck environment or genetics These and other factors do play an important role in your life However what some of the world's greatest thinkers and spiritual masters have discovered is that the world we live in is actually created by our thoughts and emotions You may be familiar with ideas such as the Law of Attraction visualization or affirmations You may have even read books or attended seminars on such topics But it's not enough to simply be aware of these principles or even to do a few exercises now and then To benefit from the principles of manifestation you must thoroughly understand them and then put them into practice every day This book will show you how to do it with ease
