Manorma Year 2015:

Manorama Year Book, 2007 **Manorama Year Book, 2015** Mammen Mathew, 2014 Reshaping India in the New Global Context Subhash C. Jain, Ben L. Kedia, 2017-10-27 This book traces the history of India's progress since its independence in 1947 and advances strategies for continuing economic growth. Insiders and outsiders that have criticized India for slow economic growth fail to recognize all it has achieved in the last seven decades including handling the migration of over 8 million people from Pakistan, integrating over 600 princely states into the union, managing a multi language population into one nation and resolving the food problem. The end result is a democratic country with a strong institutional foundation. Following the growth strategies outlined in the book and with a strong leadership, India has the potential to stand out as the third largest economy in the world in the next 25 to 30 years. Subhash Jain and Ben Kedia delve into India's development and emergence as an economic power, one of the three countries that can make its own supercomputers, one of the six countries that can launch satellites and that has the second largest small car market in the world. They discuss its need for innovative initiatives and top leadership to pursue an agenda of economic growth and monitored policies to encourage entrepreneurship at all levels. With an emphasis on the new leadership of Prime Minister Modi, the book identifies policies that need to be adopted to make India's future bright and prosperous. This book is a critical resource for students and scholars interested in India and invested in its progress as well as policymakers, government officials and corporations considering India as a place to expand and do business.

The Future of Migration to GCC Countries Françoise De Bel-Air, Nasra M. Shah, 2025-11-21 This book provides an in depth exploration of the evolving trends in South South international migration to the Gulf Cooperation Council (GCC) countries. It presents a comprehensive analysis of migration dynamics from the perspectives of nationals, non nationals, policymakers and prospective migrants. It highlights the multifaceted factors driving migration to the Gulf, including the transition from oil dependent economies to knowledge based industries and the shift from a reliance on low wage migrant workers to the integration of highly skilled expatriates. It emphasizes the Gulf states as strategic destinations for the Arab and Asian middle classes, shaped by global dynamics such as the gig economy, cultural compatibility and socio economic instability in migrants' countries of origin. Furthermore, the book offers a critical assessment of migration policies, focusing particularly on the inadequacies in safeguarding low paid migrants while challenging the prevailing notion that migration to the Gulf is temporary and primarily economically driven. Through an examination of new employment patterns, migration flows and concepts of transnationalism, the book interrogates the future trajectories of Gulf societies. It is an indispensable resource for scholars interested in the region's transitions and future prospects.

Weighed down by the gains: India's twin double burdens of malnutrition and disease Oommen C Kurian, Shoba Suri, 2019-05-21 Given its continent like diversity, India's epidemiological, nutritional and demographic transitions are occurring in a staggered fashion with high state level variances.
