*From Bleeding Edge to Leading Edge* Doug Tarry Jr.,2024-01-24

I've done complicated It's complicated Residential and commercial buildings account for 17% of Canada's greenhouse gas emissions In the United States that figure is roughly 29% Net Zero homes which produce at least as much energy as they consume will play a key role in the current global climate crisis by drastically reducing energy consumption in the housing sector Doug Tarry is a leading international authority on Net Zero homes His company Doug Tarry Homes Limited has certified more Net Zero Net Zero Ready homes over 500 and counting than any other builder in Canada The title

of Doug's book *From Bleeding Edge to Leading Edge: A Builders Guide to Net Zero Homes* refers to his complicated and sometimes painful journey to Net Zero. Throughout the book, Doug offers his first-hand experience on what has worked and what hasn't in building Net Zero homes along with expert advice from some of the industry's leading builders, building scientists, and energy consultants. Much has been written about the technical details of building high-performance homes, but this book goes further and deals with the why and the how, discussing topics such as holistic design, embodied carbon, the Four Principles of Modern Design, the 100-year home, and climate resiliency. Written in plain language and infused with humor and storytelling, this book is a must-read for builders, renovators, architects, municipal officials, industry stakeholders, and home buyers anyone interested in the future of home building.
