Ipod Fifth Generation Manual

Jim Heid

Ipod Fifth Generation Manual:

CSS: The Missing Manual David Sawyer McFarland, 2006-08-24 Web site design has grown up Unlike the old days when designers cobbled together chunky HTML bandwidth hogging graphics and a prayer to make their sites look good Cascading Style Sheets CSS now lets your inner designer come out and play But CSS isn't just a tool to pretty up your site it is a reliable method for handling all kinds of presentation from fonts and colors to page layout CSS The Missing Manual clearly explains this powerful design language and how you can use it to build sparklingly new Web sites or refurbish old sites that are ready for an upgrade Like their counterparts in print page layout programs style sheets allow designers to apply typographic styles graphic enhancements and precise layout instructions to elements on a Web page Unfortunately due to CSS's complexity and the many challenges of building pages that work in all Web browsers most Web authors treat CSS as a kind of window dressing to spruce up the appearance of their sites Integrating CSS with a site's underlying HTML is hard work and often frustratingly complicated As a result many of the most powerful features of CSS are left untapped With this book beginners and Web building veterans alike can learn how to navigate the ins and outs of CSS and take complete control over their Web pages appearance Author David McFarland the bestselling author of O'Reilly's Dreamweaver The Missing Manual combines crystal clear explanations real world examples a dash of humor and dozens of step by step tutorials to show you ways to design sites with CSS that work consistently across browsers You'll learn how to Create HTML that's simpler uses less code is search engine friendly and works well with CSS Style text by changing fonts colors font sizes and adding borders Turn simple HTML links into complex and attractive navigation bars completely with CSS only rollover effects that add interactivity to your Web pages Style images to create effective photo galleries and special effects like CSS based drop shadows Make HTML forms look great without a lot of messy HTML Overcome the most hair pulling browser bugs so your Web pages work consistently from browser to browser Create complex layouts using CSS including multi column designs that don't require using old techniques like HTML tables Style Web pages for printing Unlike competing books this Missing Manual doesn't assume that everyone in the world only surfs the Web with Microsoft's Internet Explorer our book provides support for all major Web browsers and is one of the first books to thoroughly document the newly expanded CSS support in IE7 currently in beta release Want to learn how to turn humdrum Web sites into destinations that will capture viewers and keep them longer Pick up CSS The Missing Manual and learn the real magic of this tool

MOJO: The Mobile Journalism Handbook Ivo Burum, Stephen Quinn, 2015-07-16 MOJO The Mobile Journalism Handbook is the first book devoted specifically to training citizens journalism students and media professionals to produce professional quality videos with only a mobile device As journalism becomes increasingly competitive students and emerging professionals need a broader skillset to make themselves more employable whether as mainstream or entrepreneurial journalists This book by Dr Ivo Burum and Dr Stephen Quinn world experts in mobile journalism provides comprehensive coverage of all the skills and

practices needed to be a mobile journalist Key features Burum and Quinn underline the importance of story and storytelling the crucial context journalists always need to keep in mind Other books and tutorials merely offer step by step guidance to mobile technology and apps The book synthesizes the knowledge and more than 70 years of combined expertise of two of the world s leading mobile journalism practitioners offering sage advice and tips from people who have trained mojos in more than 20 countries Companion Website How to videos on the companion website offer powerful ways for learners to absorb the content easily walking them through the key mojo components of research shooting scripting voice over editing and post production www.routledge.com/cw/burum Ivo Burum is an award winning writer director and television executive producer He has more than 30 years experience working across genres including frontline international current affairs A pioneer in UGS creation Dr Burum lectures in multimedia journalism This is his second book about mojo He runs Burum Media a mojo and web TV consultancy that provides training for journalists educators and remote communities internationally Stephen Quinn was a journalist for 20 years before he became a university professor in 1996 Dr Quinn taught journalism in five countries until he returned to journalism in 2011 in Hong Kong His UK based company MOJO Media Insights trains mobile journalists around the world This is his twenty first print book He has also produced 5 iBooks He co writes a weekly column syndicated to seven countries
