
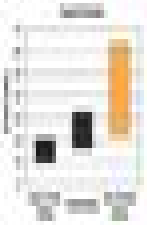
"...I was blown away... almost no thought required to adapt to typing on it... From the get go, my fingers knew how to type..." [illegible]

Comparable speed.

One-handed typing speeds of the 30 to 60 words per minute range are easily achievable using the Maltron 50E Keyboard. This range is comparable to the performance of most two-handed typists, and more than sufficient for typical clerical tasks.



Comparable skills.

One-handed typing is fast and easy on the 50E Keyboard. Since it uses your existing skills, the learning curve is very short.

An average touch typist can start one-handed typing immediately, and will reach 20 words per minute speed after less than 10 hours of use.

For a non-touch typist, learning time is the same as learning two-handed typing.

Use either hand - or both.

The Maltron 50E Keyboard allows one-handed typing using either hand, left or right, or both hands, just like a standard keyboard.

One-handed typing can be switched on or off using the "mode" key. Press once for one-handed typing, twice for two-handed typing.

How do I type with one hand?

One-handed typing on the 50E Keyboard is a lot like two-handed touch typing.

1. Press the "mode" key once to turn on one-handed typing (pressing twice turns it off).

2. Place your hand in the standard home row position, and touch-type in the standard way.

3. For letters of the other (non-used) hand, hold down the space bar with your thumb, and use the fingers of your typing hand to do the same movements that the other hand normally does.

4. Tap the space bar to type spaces.

5. Tap the Shift key once to capitalise the next letter you type.

The industry standard.

Maltron has proudly served the needs of the disability community for over 10 years. Its technology is the de facto standard for one-handed typing in the industry.

helping you with section 508

Operable with one hand

[illegible] the ability to access their computer equipment, for example with one hand, without excessive strain or undue effort.

The 50E Keyboard's unique one-handed typing technology makes them operable, compliant with a standard keyboard.

Highest level of compliance

[illegible] Many times, the Federal agencies are required to purchase products that have met the Section 508 standards.

Maltron is proud to announce that its specialist 50E One-Hand Typing Tutor is a perfect compliance to the new Web-based Section 508 standards and that new tools should be available.
