

How to use the new Ozone Maximizer ?

The Ozone Maximizer allows more transparent limiting with less pumping at higher volumes. This is ideal for whenever you need to tame the kick drum peaks without causing vocals to pump. You might use it to keep the subtle snap of a snare rimshot in a country single, or make sure a techno track has an incredible impact in the club. The Ozone Maximizer will prevent your master from clipping while dramatically lifting the perceived overall audio level for more loudness, all without sacrificing crisp detail.

To use this new limiter on your master output, make sure to enable your limiter in the mixing mode you're using. Then select "Ozone" as the limiter type.
