Instructor Resource Center on DVD [to Accompany] McKnight's Physical Geography, 10th Ed. [by] Darrel Hess ,2011

Encyclopedia of Geography Terms, Themes, and Concepts Reuel R. Hanks,2011-10-17 This text provides an essential reference handbook for students of geography and related social sciences How did the Greek geographer Eratosthenes make an accurate calculation of the earth s circumference more than 1 500 years before the first voyage of Columbus to the New World What are the green belts of England that dominate its rural landscape And what is regarded as the driest continent on the planet This handbook offers a broad coverage of terminology and concepts serving as both an encyclopedic dictionary of geography terms and an approachable overview to the human and physical aspects of world geography Approximately 150 geographic terms and concepts are defined and discussed providing an accessible reference for anyone who requires a deeper knowledge of the language and ideas that are important to geography as a discipline Helpful sidebars are provided to shed light on unusual or controversial theories and concepts All major geographic concepts and terms are addressed and comprehensively explained using examples **Study guide [for] Physical geography** Darrel Hess,2011

Natural Hazards: Earth's Processes as Hazards, Disasters, and Catastrophes (4th Edition) Edward Keller,Duane DeVecchio,2015-05-20 *Natural Hazards* Edward A. Keller,Duane E. DeVecchio,2016-07-07 Natural Hazards Earth Processes as Hazards Disasters and Catastrophes Fourth Edition is an introductory level survey intended for university and college courses that are concerned with earth processes that have direct and often sudden and violent impacts on human society The text integrates principles of geology hydrology meteorology climatology oceanography soil science ecology and solar system astronomy The book is designed for a course in natural hazards for non science majors and a primary goal of the text is to assist instructors in guiding students who may have little background in science to understand physical earth processes as natural hazards and their consequences to society Natural Hazards uses historical to recent examples of hazards and disasters to explore how and why they happen and what we can do to limit their effects The text s up to date coverage of recent disasters brings a fresh perspective to the material The Fourth Edition continues our new active learning approach that includes reinforcement of learning objective with a fully updated visual program and pedagogical tools that highlight fundamental concepts of the text This program will provide an interactive and engaging learning experience for your students Here s how Provide a balanced approach to the study of natural hazards Focus on the basic earth science of hazards as well as roles of human processes and effects on our planet in a broader more balanced approach to the study of natural hazards Enhance understanding and comprehension of natural hazards Newly revised stories and case studies give students a behind the scenes glimpse into how hazards are evaluated from a scientific and human perspective the stories of real people who survive natural hazards and the lives and research of professionals who have contributed significantly to the research of hazardous events Strong pedagogical tools reinforce the text s core features Chapter structure and design
