

Memories From the Childhood

3 pages | 615 words

Everyone have a childhood memories in their life and are special for everyone. When I recall my childhood memories, there are many stories. Childhood is special for everyone. My childhood memories have shaped me into the person I am today. There are many different childhood memories that I can remember that really made an impact on how my personality is today. Some of memories make me happy, but others make me grow up. The memories that made my growing happened when I was about 6 years old and my mom used to take me swimming as she sat nearby and I swam in the evenings.

One day for some reason I can't recall she wasn't there, nor were there any guards. I was swimming in the shallow, and God knows why, I moved over to the deep. You can imagine I was a little kid. Suddenly I lost grip and began to drown. But I didn't resist. I just kept sinking till I had reached the bottom and after 10 seconds I felt myself suffocating. But I still remained perfectly still This 18 years old girl came out of nowhere, I have no idea how she figured out (I never knew her), she pulled me up and asked me if I was okay.

I was choking and later I began bleeding from the nose, another Lady took me to the toilet to wash my nose. And this unidentified girl left, never to be seen again. It's hard to explain, but trust me I would have died that day. And no one would have noticed. She left, and I could never thank her. I was too young to even comprehend the severity of the casualty I was leading myself into. I still remember her, and it's like this memory is a part of me.

I have been grateful to people ever since and made my loved ones realize how much they mean to me from time to time. There's nothing more tragic than losing someone you never got to thank or tell how much you value them. Until now I already grow up but I still remember about this childhood experience, and this memories keep remind me don't let death and separation to guilt and regrets, just make the best use of time you have. I'll cherish everything the childhood experience taught me and shaped me who I am now.

When I remember my grand father I really start to cry, I was 4 years when he died, I remember him and what we did together as it was yesterday, I think remembering all memories with someone when you were 4 years old, it proves how much did you love that person and how close he was to you actually, to your heart. I wish that I can go back and to live on day from my childhood, when I was always feeling that am safe, when me and my friends living day by day and we were not planning for anything to happen in the day after. We didn't know what's meant...

readers drawn both to After China as diasporic literary heritage and comparative literature in general **Making Modern Meals** Amy B. Trubek, 2017 Home cooking is crucial to our lives but it is not necessary to our survival Over the past century it has become an everyday choice even though it is no longer an everyday chore By looking closely at the stories and practices of American home cooks witnessing them in the kitchen and at the table Amy B Trubek reveals our episodic but also engaged relationship to making meals Making Modern Meals explores the state of American cooking across all its varied practices whether cooking is considered a chore a craft or a creative process Trubek challenges current assumptions about who cooks who doesn't cook and what this means for culture cuisine and health Contending that cooking has changed in the past century she locates identifies and discusses the myriad ways Americans cook in the modern age In doing so she argues that changes in making our meals from shopping to cooking to dining have created new cooks new cooking categories and new culinary challenges Provided by publisher Diagrams of Power in Benjamin and Foucault Mark Laurence Jackson, 2022-09-04 This book's overarching premise is that discussion and critique in the discourses of architecture and urbanism have their primary focus on engagements with form particularly in the sense of the question as to what planning and architecture signify with respect to the forms they take and how their meanings or content what is contained is considered in relation to form as container While significant critical work in these disciplines has been published over the past 20 years that engages pertinently with the writings of Walter Benjamin and Michel Foucault there has been no address to the co-incidence in the work of Benjamin and Foucault of an architectural figure that is pivotal to each of their discussions of the emergence of modernity The arcade for Benjamin and the panoptic prison for Foucault have a parallel role In Foucault's terms panopticism is a diagram of power The parallel for Benjamin would be his understanding of constellation In more recent architectural writings the notion of the diagram has emerged as a key motif Yet and in as much as it supposedly relates to aspects of the work of Foucault along with Gilles Deleuze this notion of diagram amounts for the most part to a thinly veiled reinstatement of geometry as idea This book redresses the emphasis given to form within the cultural philosophy of modernity and particularly with respect to architecture and urbanism inflects on the agency of force that opens a reading of their productive capacities as technologies of power It is relevant to students and scholars in poststructuralist critical theory architecture and urban studies This is a book about Foucault and Benjamin and it is grounded in a deep knowledge of and reflection upon their works but it is also underpinned by an impressive erudition There are reflections on Hegel and Heidegger central to the author and Derrida along with Kierkegaard and others This leads to a rich and suggestive discussion in staging a spatial architectural political conversation between Foucault and Benjamin Anonymous Reviewer Mark Jackson's *Diagrams of Power in Benjamin and Foucault* The Recluse of Architecture juxtaposes and interrogates its two leading actors so as to draw from and through them a theory of architecture which is inseparable from its recluse In doing so it elaborates a series of complex connections with their various interlocutors and inspirations Hegel Heidegger Derrida the

Kabbalah Agamben allegory Marx Deleuze Klossowski tragedy capitalism modernity and so on The list is long and impressive This is not only done with an extremely high degree of scholarship but is presented in a light lucid and very compelling manner in a voice both personal and authoritative The recluse is the figure of mimesis itself the appearance of a withdrawal always already a ruin This book not only contributes a highly astute reading of its philosophical objects but it enacts the ontology of the recluse through its own unfolding simultaneously revealing and withholding the meaning of architecture as such so that we not only understand its meaning but feel the pulsing differential of the book's object as if it were alive within us Stephen Zepke Independent Researcher Vienna
