Research Libraries,1979 MG Car Clubs

Graeme Smith, 2020-05-27 MGCCWW START Mechanics are the foundation of MG car clubs in Australia And maybe elsewhere too After the Second World War the rich people bought sports cars That meant mainly MG TC s After a couple of years they sold them and bought something else The mechanics who looked after those cars then bought the TC s cheaply They could keep them going and also modify them which they did It was people such as these who also competed in races hill climbs and trails MG Car Clubs in Sydney Melbourne Brisbane and Adelaide Were founded on this tradition Wagga Wagga came much later when mechanics like Ron had old MGB s Gradually cars improved and became more complex The old art of being a mechanic started to change Some people became car sellers and others restored old cars like Dick Others upgraded their skills by working in big garages and others were left behind My start Back in 1997 I was teaching Parkes My family lived in Dubbo where I went during the school holidays There MG owners used to park in a group in the main street Macquarie Street They d chat and look at one another s cars and occasionally go for a drive They were mainly MG TC s and TF s I never saw a TD for many years There might be fewer in Australia than the other T series as most went to USA Used to admire the MG s and got to know some of the people One was another teacher who had a TF I had about enough money to think about buying a car Some of that was compensation for my deafness That had happened a couple of years earlier There was one owner wanted to sell his TC It looked great in pale blue with cycle guards and it went well too So I thought I d buy it for my first car Then I made a mistake I went home and told dad He thought I d kill myself in one of those Next thing I knew I was the owner of a 1954 FJ Holden It was cream with brown upholstery I also had to get my licence So I went for that the next day but had a minor bingle and failed the test Went back the following day and passed Haven t times changed After four months of driving the FJ I knew if I kept that car much longer I really would kill myself They just couldn t handle The motor was OK but it leant over at alarming angles when cornering It had too much power for the chassis That s why people used to put sandbags in the boot The rough roads didn t help either So I bought my first MG a 1954 TF I showed it to my dad after I took delivery This was the first of six MG s I have owned I enjoyed driving the TF but became attracted to the idea of additional power So a year later I traded it on an Austin Healey 100 Although there were only three gears it had overdrive A flick of the switch and the Healey and I were overtaking However there was a penalty for that power It wasn t long before I had four worn tyres In addition the car had a fatal flaw just as the FJ Holden did It could handle all right BUT it was far too low The underneath of the car would scrape roads and gutters everywhere Except on the highway So it was time for another MG This time I swapped the Healey for an MG TF which was in immaculate condition It was a 1500cc model too Although you d need a stopwatch to tell the difference from the 1250cc version I had this car for a number of years using it as my daily driver Eventually there was a blown motor That was the end of my MG motoring for many years My next MG is another story though Because that purchase also was the beginning of a car club

**Me and My MG** Gordon Thorburn, 2011 Read about the Berkshire restorer who saw a heap of old iron in the bushes and realized it used to be a 1926 bullnose Super Sports and

the seven year old boy in Norfolk Virginia who read a book called The Red Car and knew that one day he would have to have a TC and the Dutch boy who saw an MGB on his way to school and knew something similar There s the French boy aged nine whose nana gave him a model kit to assemble and the USAF fighter pilot who saw his first MG in Britain during the war and was in love for ever A Canadian took 32 years to restore his TA while a Swiss professor installed spaceship electronics in his TD An aeronautical engineer was left some money and bought a 1929 18 80 Tourer that he thought had been restored An Australian 17 year old happened across a secondhand MGB was done for speeding and lived happily ever after A Swedish boy walked out one Sunday morning into the middle of an MG rally Each of these and many more has a story All the stories are different but the story tellers have something in common They would all rather love and sometimes despair of a wonderful vehicle with faults in its character than have no feelings about one that has no character at all
