Michael Parkin Microeconomics 11 edition:

The Microeconomics Anti-Textbook Rod Hill, Tony Myatt, 2021-12-02 Mainstream textbooks present economics as an objective science free from value judgements The Microeconomics Anti Textbook demonstrates this to be a myth one which serves to make such textbooks not only off puttingly bland but also dangerously misleading in their justification of the status quo and neglect of alternatives In this fully updated and expanded edition of their celebrated book Professors Rod Hill and Tony Myatt lay out the essentials of each topic in the standard texts in a clear and concise way before presenting an anti text analysis and critique Challenging the assumptions arguments and models Hill and Myatt provide the essential guide to decoding the textbooks and show that real economics is far more interesting and subversive than the simplistic version presented to students

Teaching Principles of Microeconomics Mark Maier, Phil Ruder, 2023-01-06 Abundant with practical advice and ready to use teaching examples this dynamic guide will help both new and experienced instructors of Principles of Microeconomics to reconsider and refine their courses Mark Maier and Phil Ruder assemble the wisdom of 25 eminent scholars of economic education on how best to introduce students to the discipline and inspire a long lasting passion for microeconomics

Principles of Economics' 2003 Ed. , Natural Resource Economics Barry C. Field, 2008-03-12 People make decisions regarding the use of natural resources every day from the individual recycling a sheet of paper to governments of large nations creating energy policy Those decisions ultimately affect people around the world Their motivation and results are best framed and analyzed using the tools of natural resource economics Field presents the methods and applications of the discipline in the latest edition of his popular text The updated book retains its successful structure first presenting basic economic principles as they apply to natural resource use and then examining the economic issues surrounding individual resources New material is included on energy demand and efficiency nonrenewable resources individual transferable fishing quotas water pricing agricultural cropland programs and the Endangered Species Act
