Michigan Schools Report Card:

New Developments in Pupil Report Cards ... National Education Association of the United States. Department of superintendence & research division,1934 **The Michigan Public High School Context and Performance Report Card** Michael Van Beek,Daniel Bowen,Jonathan Mills,2012-07-19 **Michigan School Moderator** ,1918 **Education Reform and the Limits of Policy** Michael Addonizio,C. Philip Kearney,2012 While there is no doubt that an abundance of newly enacted education policies abounds across the state and across the nation more fundamental questions remain What is the nature of these reforms What do they hope to accomplish How successful have they been In this book we attempt to provide some answers to these questions by examining a major set of education policy reforms undertaken in Michigan and across the country over the past 20 or more years These innovations include finance reform state assessment of student performance a series of school accountability measures charter schools schools of choice and for Detroit a bevy of oft conflicting policies and reform efforts that have belabored but seldom helped its public schools In the pages that follow we examine the decidedly mixed outcomes and effects of this large array of reform policies and programs Each chapter addresses a specific policy area outlining reform activity across the nation with an emphasis on Michigan s efforts as well as on one or two states that led these changes *The University of Michigan School of Education Bulletin* University of Michigan. School of Education,1929 **The 2014 Michigan Public High School Report Card** Audrey Spalding,2014-11-18 **Moderator-topics** ,1922 **Education Reform in the American States** Jerry McBeath,Maria Elena Reyes,Mary Ehrlander,2008-04-01 Education Reform in the American States is a timely evaluation of the accountability movement in American public education culminating in the No Child Left Behind Act federal legislation of 2002 The authors treat the current accountability movement placing it in historical context and addressing the evolution in public education policymaking from the overwhelming emphasis on state and local discretion to increasing federal oversight and mandates related to federal funding They provide case studies of the educational accountability movements in nine states and analyze the factors and forces which explain progress in achievement levels as measured on standardized tests and the states prospects for meeting their NCLB targets The book and the individual case studies acknowledge the merits of NCLB while exposing several significant flaws and unintended harmful consequences of the act particularly its incentives for states to lower their standards in order to meet annual yearly progress targets and its threat to withdraw federal funds from districts with the highest percentage of disadvantaged students The audience for this study includes local state and federal education policy makers administrators and instructors in schools of education and other teaching programs educators and the general public **Michigan Education Report** ,1987-04 **Lights Out at Northern** Perry Munson,2010-08-11 The opening of the story vividly follows the author s relocation to Detroit Michigan from Seattle Washington Munson crosses the plains in his Volvo pulling his sailboat to his new home in Grosse Pointe Michigan He a teacher is moving there because his wife a

pathologist has found a new job at Detroit Medical Center As he drives he reflects on the land he crosses and the experiences he had in school in rural South Dakota and how it shaped his outlook As he drives he has great doubts about moving to Michigan and questions his future there Yet he is on the road with no way to turn back Finally he arrives in Detroit entering the rustbelt city that looks like a new planet to him poverty stricken destroyed and hopeless The scene shifts to his experiences while moving in and getting settled and the adjustments he has to make to live in a large crime ridden Midwestern city After a discouraging job hunt he is suddenly employed by Detroit Public Schools as a chemistry teacher and enters the classroom The experience is so incredibly different than anything else that he has previously seen in education that he decides to start keeping a diary of relevant day to day activities Months lead to years and he describes the dynamics of teaching in a inner city school Corruption abysmal administrative incompetence and even great but not to numerous educational triumphs go down in print His journal is that of an observer from the outside looking in The diary becomes the stream of consciousness of a hard working dedicated teacher who is tormented by what he sees and cannot change There are successes but the climb is constantly uphill due to administrative bungling a pathetic lack of supplies and low expectations placed on students by the system As the years go by the school is engifted with a huge grant from the Kellogg Foundation It is supposed to reform the school and result in a turn around that never happens Funds disappear not very much appears in the classrooms and nobody seems to notice any appreciable difference in the quality of education After all is spent there is only disillusionment and anger in the school over the project A new principal takes over and the school further declines into violence and chaos Yet through all of this Munson finds that education can and does take place in his classroom if he works hard with what he has available and does the best he can under the worsening circumstances In the end his main positive experience is the students themselves those who could be changed and enabled After thirteen years in Northern High School the environment becomes so violent dangerous and hopeless that Munson seriously contemplates transferring out to another school In this last year he describes a crumbling lawless school so vividly that you can smell the smoke from the fires and hear the screams of students beating and being beaten August 2004 finds Munson in Finney High School just a bit over a mile from his home He finds more of the same there but the commute is at least short He surprisingly teaches quite successfully there for three years and then on June 22 2007 he retires from thirty years of public school teaching On that very same day Northern High closes its doors due to lack of enrollment At the end of the day the lights were turned out
