## **Michael Jackson Earth Song:**

**Earth Song** Joseph Vogel, 2017-09-10 Released in 1995 Michael Jackson's Earth Song was unlike anything heard before in popular music. Protest songs had long been part of the heritage of rock but not like this Earth Song's vision was more panoramic its roots more primal. Its unusual fusion of blues, opera, rock and gospel resembled nothing on the radio. A massive hit globally it wasn't even offered as a single in the United States. Most critics didn't know what to make of it. Yet decades later it stands as one of Jackson's greatest artistic achievements. In this groundbreaking book Joseph Vogel traces the song's evolution from its inception in Vienna in 1988 to its long gestation in the recording studio to Jackson's final rehearsal in 2009. Situating the song within the historical context of the Reagan, Bush and Clinton eras the book also explores the artist's broader humanitarian efforts from his participation in USA for Africa to his Heal the World Foundation. Based on original research including interviews with the song's key participants Earth Song: Michael Jackson and the Art of Compassion offers a necessary reassessment of this powerful anthem and Jackson's audacious efforts to change the world. **Earth Song:**

**Inside Michael Jackson's Magnum Opus** Joseph Vogel, 2012-12-01 FULLY REVISED AND UPDATED Released in 1995 Michael Jackson's Earth Song was in many ways anachronistic. In both theme and sound it was like nothing else on the radio. It defied the cynicism and apathy of Generation X. It challenged the aesthetic expectations for a pop song or even a protest song fusing blues, opera, rock and gospel. It demanded conscience in an era of corporate greed, genocide and environmental indifference. A massive hit around the world reaching #1 in over fifteen countries it wasn't even offered as a single in the United States. Yet nearly eighteen years later this six and a half minute lamentation stands as one of Jackson's greatest artistic achievements. In this groundbreaking monograph author Joseph Vogel who filmmaker Spike Lee praised as having brilliantly cracked the DNA of Jackson's work details the song's evolution from its inception in Vienna in 1988 to never before heard stories from the recording studio to its controversial release and reception to Jackson's final live performance in Munich in 1999. Based on original research including interviews with the song's key participants Earth Song: Inside Michael Jackson's Magnum Opus offers a fascinating reassessment of this timeless work of art. [The Dangerous Philosophies of Michael Jackson](#) Elizabeth Amis, 2016-09-26 An essential companion to Michael Jackson's music, films and books this work offers 21 original academic essays on all things Jackson from film, music and dance to fashion, culture and literature. Going well beyond the average celebrity biography this comprehensive book looks at why Jackson is regarded as one of the most important musicians of our time offering insights into every facet of his art, life and artistic afterlife. It looks at the methods by which his work was created, presented, received and appropriated, discusses Jackson's varied personas along with his public and private appearances, albums, conceptual art, short films and dance and considers his use of costume, makeup and reinvention.
