

Lab Exercise 38.C: Evidence of Hereditary Material

Some studies have shown that cells of a single individual contain approximately equal amounts of DNA. Other researchers, who have also demonstrated similar results, have found that the amount of DNA is not equal in all cells of an individual. This has led to the conclusion that DNA is not equally distributed in all cells of an individual. This is the basis of the experiment described in this lab exercise (Figure 38.C).

Grady, 2008 The theme of this book is life in the Universe focusing on two questions How did life begin on Earth Is there life elsewhere in the Universe In an attempt to find the answers to these questions this book explores the origin and early evolution of the Earth and explains why this is not only of interest in itself but also guides the search for life beyond the Earth It looks at the rest of the Solar System to see whether any other planets or their satellites have life on them today or have supported life in the past It looks beyond the Solar System at the evidence for planets around other stars and how life may be discovered should it exist on these extrasolar planets and briefly at the search for extraterrestrial intelligence SETI

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and gripping novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
