Also included are extensive updates on management of COPD, diabetes, oncologic emergencies, and overdoses and poisonings. A special section on Nursing Considerations has been added, which contains chapters on the use of nursing-sensitive quality indicators, the role of advanced practice nurses in the ICU, effective collaborative practices in the critical care team, and ICU nursing and telemedicine. The new edition will be presented in full color for the first time. A companion website will provide instant access to the complete and fully searchable text.
