North Dakota. State Examiner

Mechant Bank Annual Report 2008:

Corporate Governance and Banking in China Michael Tan, 2013-09-02 As China began its economic reforms in the late 1970s and made a transition from planned to a market economy corporate governance of the banking sector became an increasingly pressing issue Further in the aftermath of the Asian Financial Crises in the late 1990s Chinese authorities became acutely aware of the importance of corporate governance to ensure that their banking system would not suffer similar fates to those of other Asian countries This book examines corporate governance in city commercial banks which are the main source of loans to the dynamic small and medium enterprises that are crucial to the development of China's economy By the end of 2008 there were 136 city commercial banks in China 13 of which had foreign partners and this book clearly demonstrates the positive effect of these foreign partnerships on corporate governance practices in addition to financial performance With evidence from extensive interviews with 10 city commercial banks in China Michael Tan explores the different models of corporate governance and in turn asks which model is most suitable to China how are Chinese authorities overcoming problems with corporate governance and how do these problems compare with those in other transition economies Whilst the primary focus of this study is on China's city commercial banks there are lessons that apply much more broadly to the industry and it therefore will be invaluable to foreign banking institutions wishing to invest in China This book will also be of great appeal to students and scholars of Chinese business and economics corporate governance and banking

Financial Crime in China Hongming Cheng, 2016-01-26 Given China's rapid development many observers assert that world economic growth and key economic indicators are now depending on the country alone including the prospects of the dollar the Euro oil prices industrial commodities global equity markets and bond prices On the other hand China faces a number of major social and economic challenges which could undermine future growth such as prevalent corruption financial crime and the relative lack of the rule of law Financial Crime in China builds upon original research into the topic and offers a never before seen look at the systemic spread of state controlled corruption in the form of bank fraud securities fraud insider trading and Ponzi schemes Cheng presents an authentic picture of financial crime in China by identifying the latest manifestations analyzing empirical data and case studies and drawing conclusions about the origin characteristics dynamics and developmental features of financial criminality in the context of political economy

Corporate Governance of Banks in Libya Ali Elfadli, 2019-09-23 This book represents a response to a relative lack of academic research into corporate governance and especially corporate governance disclosure in the Middle East and North Africa MENA Specifically the author explores recent developments in corporate governance disclosure produced by Libyan commercial banks Along with other corporate governance mechanisms disclosure plays an essential role in discharging accountability to and protecting shareholders enhancing corporate performance and reducing the risk of financial crises In order to improve corporate governance disclosure it is necessary to understand the context in which it takes place The

MENA countries have unique characteristics and those involved in the Arab Spring have been affected in different ways This book provides up to date research into corporate governance disclosure in the context of Libya following the Arab Spring The banking sector plays a crucial role in the Libyan economy and has specific characteristics which make corporate governance more important than in other sectors yet research in this sector is rare Furthermore the banking sector in Libya has seen significant corporate governance reforms in recent years As one of the most significant oil producing countries Libya s political and business environments have been dramatically affected by the Arab Spring The author discusses how banks have responded to these reforms and the ways in which their corporate governance disclosure has evolved
