L'association Sociologie Et Économie Plurielle:

Solidarity and Organization Philippe Eynaud, Genauto Carvalho de França Filho, 2023-04-12 Solidarity is an unthought in the fields of organizational theory and management sciences. However, it is an increasingly important feature in the management of organizations. The contemporary world suffers from a double unsustainability: the abusive exploitation of natural resources endangers the balance of the climate and biodiversity, while growing inequalities condemn our ability to maintain a balanced society. These unsustainabilities are mutually reinforcing and call for the affirmation of a double solidarity which unites humans among themselves and links humans and nonhumans. Such an effort cannot be decreed; it must be organized. Based on numerous grassroots initiatives and citizens' experimentations that are being invented every day around the world and on a historical and anthropological approach, this book explores different ways of combining solidarity and organization. Solidarity-based management, governance of the commons, and Buen Vivir approaches are some of the perspectives analyzed in the context of a North-South dialogue in order to formulate the conceptual framework and practical steps of a social and environmental transition. It offers both theoretical background and living examples to students, professors, and researchers to better understand and better teach new avenues for management. *The French Nonprofit Sector* Laura Nirello, Lionel Prouteau, 2018-08-20 This article deals with the literature on the French nonprofit sector (NPS). A preliminary part is devoted to presenting and discussing the characteristics that shape the approaches to this sector in France. We stress the strong influence of legal categories on the sector's definition and, in this context, the importance of the status inherited from the 1901 Act on contracts of association. This raises a problem for a more analytical approach to the sector because the diversity of the nonprofit organizations (NPOs) regulated under this Act risks being overshadowed. In this first part, we also underline the primacy accorded in France to the concept of the social economy, which has today become the social and solidarity economy (SSE), over that of the nonprofit sector. In the second part, the article outlines some landmarks in the history of the French NPS. French NPOs were for many years objects of suspicion, arbitrariness, and repression on the part of the public authorities, and this persisted until the 1901 legislation on contracts of association was enacted. However, this hostile context did not prevent the sector from having a richer existence than is sometimes admitted. This literature review also focuses on empirical studies of the sector, placing a particular emphasis on the more recent ones. These French studies basically adopt two types of approach. The first is concerned essentially with the NPOs and focuses its attention on their economic importance, whether measured in terms of financial resources, employment, or less frequently, added value. The second approach investigates the kinds of individual participation the sector engenders by examining the various forms it takes, such as membership of NPOs or voluntary work. This review ends with the analysis of the challenges that NPS faces in a context characterized by the increasing constraints on public funding, changes in the nature of such funding, with a substitution of contracts for subsidies, an increased competition among NPOs as well as between NPOs and for-profit

enterprises The article concludes that despite the advances in research on the French NPS some aspects like formal volunteering and the role of voluntary associations are still understudied while others like informal groups and informal volunteering are almost totally ignored

L'Association Jean-Louis Laville, Renaud Sainsaulieu, 2013-01-16 Les associations sont partout dans le monde en plein essor En France elles regroupent près de 2 millions de salariés et dans la première décennie du XXI^e siècle elles ont créé plus d'emplois que les entreprises privées Par ailleurs près d'un français sur trois de plus de 15 ans est bénévole Les associations présentes dans de nombreux domaines sont donc au cœur de la société civile et civique Pourtant elles restent méconnues voire caricaturées elles souffriraient d'amateurisme par rapport à l'entreprise ou elles ne serviraient qu'à compenser le retrait du service public Cet ouvrage détaille leur fonctionnement institutionnel et organisationnel leur rôle économique et politique ainsi que les transformations sociales qu'elles induisent Appuyé sur de nombreuses études de cas il brosse un tableau fidèle et très vivant de la dynamique associative en France et en livre une analyse originale dans ses dimensions théorique, pistologique et pratique Ce livre correspond à une réflexion profondément remaniée et actualisée de l'ouvrage *Sociologie de l'association* de Renaud Sainsaulieu et Jean-Louis Laville paru en 1997 aux éditions Desclée de Brouwer Jean-Louis Laville est Professeur du Conservatoire national des Arts et Métiers et chercheur Lise Cnam CNRS Il a déjà publié dans la collection Pluriel *L'économie solidaire* Renaud Sainsaulieu 1935-2002 fut l'un des principaux théoriciens français de la sociologie des organisations

Vers une théorie de l'économie sociale et solidaire David Hiez, Eric Lavillunière, 2013-02-22 La recherche en économie sociale et solidaire a véritablement pris son essor au début des années 2000 Elle a investigué de nombreux champs de nombreux domaines d'activité mais ne dispose pas d'une assise théorique solidifiée Les querelles internes comme les questions de frontières limitant le périmètre identitaire de l'ESS ou les intersections et différences entre économie sociale et économie solidaire nourrissent débats et incertitudes C'est cette lucidité que le présent ouvrage participe autour de chercheurs représentant les courants internationaux majeurs d'horizons interdisciplinaires différents Il prend le parti pris de l'économie sociale et solidaire comme compromis politique rassemblant l'économie sociale et l'économie solidaire Fruit de réflexions collectives menées lors d'un séminaire à l'Université de Marne-la-Vallée et d'un colloque à l'Université du Luxembourg ce livre se présente comme une réflexion théorique systématique animée par les chercheurs et les acteurs C'est un point de départ qui pose le socle d'un corpus théorique en construction dans une dynamique d'aller et retours avec les pratiques qui l'ont fondé

Sociologie de l'association Jean-Louis Laville, Renaud Sainsaulieu, 1997

La nouvelle sociologie économique Benoît Lévesque, Gilles L. Bourque, Eric Forgues, 2001 Réflexion sur une économie humaine qui présente les principaux courants de pensée porteurs d'innovations théoriques pour comprendre les enjeux actuels Il ne s'agit pas d'opposer économie et politique mais de réaffirmer que l'économie est politique contrairement à ce que colporte l'idéologie néolibérale

Social Enterprises and New Employment in Europe Carlo Borzaga, Alceste Santuari, 1998 Analyses the characteristics of enterprises that provide social services and their role in creating socially

oriented employment for disadvantaged people **La transformation sociale par l'innovation sociale** Juan-Luis Klein, Annie Camus, Christian Jetté, Christine Champagne, Matthieu Roy, 2016-01-06T00:00:00-05:00 Les innovations sociales la manière de bougies d'allumage engendrent des actions collectives qui proposent des solutions différentes de celles des pratiques dominantes aptes à gérer la transformation sociale Cet ouvrage expose les enjeux que pose la transformation sociale par l'innovation sociale et les documente par des illustrations ciblées sur des thématiques ou des expériences précises

Economie solidaire et démocratie, 2003 Avec la globalisation et l'euro il devient plus que jamais nécessaire d'interroger les interactions entre politique et économique Comment rendre compte de ces interactions L'objet de ce volume est de le faire travers un angle particulier l'économie solidaire appréhendée comme l'ensemble des expériences visant à démocratiser l'économie partir d'engagements citoyens En situant ainsi l'économie solidaire on saisit l'originalité de cette perspective savoir la volonté d'articuler de façon permanente dimensions politique et économique D'une part le discours critique s'inscrivant dans la mouvance que les médias qualifient d'altermondialisation se double d'un discours visant à favoriser l'initiative économique du plus grand nombre D'autre part les activités économiques se créent travers des processus collectifs destinés à faciliter un accès plus égalitaire à l'espace public L'économie solidaire invite donc le chercheur à penser ensemble l'activité économique et l'activité politique afin d'approfondir le concept d'espace public D'où l'organisation de ce numéro Après une mise en perspective historique et géographique de l'économie solidaire de nombreuses initiatives qui s'y inscrivent sont présentées sous l'angle de l'espace public puis des réflexions théoriques sont formulées à la lumière des expériences L'économie solidaire apparaît alors comme une réalité qui permet d'appréhender autrement l'espace public D'un placement du regard qui ouvre une perspective nouvelle de la démocratie Eric Dacheux et Jean-Louis Laville *Dictionnaire de l'autre économie* Jean-Louis Laville, Antonio David Cattani, 2005 Interdisciplinaire autant qu'international cet ouvrage offre une définition approfondie de 50 termes clés commerce équitable développement durable organisations internationales service public Ces notions s'inscrivent dans l'histoire comme dans l'actualité la plus récente *Encyclopédie protection sociale*, 2000 **Cahiers de sociologie économique et culturelle, ethnopsychologie**, 1998 *Revue économique*, 2002 *Paysans du Brésil* Eric Sabourin, 2007 Analyse anthropologique et économique de l'agriculture familiale et paysanne qui représente 90 % des exploitations du Brésil et 30-40 % du PIB agricole marchand selon les filières Malgré des politiques spécifiques d'appui cette agriculture est de plus en plus menacée par l'extension du marché du libre échange *Économie. 6e éd.* Christine Dollo, Laurent Braquet, Delphine Dolce, Nathalie Gineste, 2016-08-17 Tous les grands domaines de la science économique sont ici expliqués mis en perspective et actualisés L'ouvrage traite aussi bien des notions de microéconomie le consommateur le producteur que de macroéconomie inflation marché du travail Les éléments d'économie internationale ne sont pas en ligne avec la crise économique gouvernance mondiale Chaque chapitre se compose de définitions problématiques informations historiques d'une bibliographie ainsi que de nombreux tableaux schémas et graphiques Outre les auteurs classiques et modernes l'accent est

mis sur les recherches récentes Cet ouvrage généraliste s'adresse aux étudiants en science économique AES LEA sociologie Ives
