## **Language And Identity Discourse In The World:**

Language and Identity David Evans, 2014-12-18 Language not only expresses identities but also constructs them Starting from that point Language and Identity examines the interrelationships between language and identities It finds that they are so closely interwoven that words themselves are inscribed with ideological meanings Words and language constitute meanings within discourses and discourses vary in power The powerful ones reproduce more powerful meanings colonize other discourses and marginalize or silence the least powerful languages and cultures Language and culture death occur in extreme cases of marginalization This book also demonstrates the socio economic opportunities offered by language choice and the cultural allegiances of language where groups have been able to create new lives for themselves by embracing new languages in new countries Language can be a double edged sword of opportunity and marginalization Language and Identity argues that bilingualism and in some cases multilingualism can both promote socio economic opportunity and combat culture death and marginalization With sound theoretical perspectives drawing upon the work of Bakhtin Vygotsky Gumperz Foucault and others this book provides readers with a rationale to redress social injustice in the world by supporting minority linguistic and cultural identities and an acknowledgement that access to language can provide opportunity

**Language, Identity, and Syrian Political Activism on Social Media** Francesco L. Sinatora, 2019-09-04 Language Identity and Syrian Political Activism on Social Media is an empirical contemporary Arabic sociolinguistic investigation informed by theories and notions developed in the fields of Arabic linguistics sociolinguistics discourse analysis and linguistic anthropology Building on the Bakhtinian concept of linguistic hybridity this book conducts a longitudinal analysis of Syrian dissidents social media practices between 2009 and 2017 It shows how dissidents have used social media to emerge in the discourse about the Syrian conflict and how language has been used symbolically as a tool of social and political engagement in an increasingly complex sociopolitical context This monograph is ideal for students sociolinguists and researchers interested in Arabic language and identity

**Language, Literature, and Identity** Kizitus Mpoche, Tenu Mbu, 2006 **Language, Identity, and Power in Modern India** Riho Isaka, 2021-10-28 This book is a historical study of modern Gujarat India

addressing crucial questions of language identity and power. It examines the debates over language among the elite of this region during a period of significant social and political change in the late nineteenth and early twentieth centuries. Language debates closely reflect power relations among different sections of society such as those delineated by nation, ethnicity, region, religion, caste, class, and gender. They are intimately linked with the process in which individuals and groups of people try to define and project themselves in response to changing political, economic, and social environments. Based on rich historical sources including official records, periodicals, literary texts, memoirs, and private papers, this book vividly shows the impact that colonialism, nationalism, and the process of nation building had on the ideas of language among different groups, as well as how various ideas of language competed and negotiated with each other. *Language Identity and Power in Modern India, Gujarat c. 1850-1960* will be of particular interest to students and scholars working on South Asian history and to those interested in issues of language, society, and politics in different parts of the modern world.

**Language, Identity and Symbolic Culture** David Evans, 2018-05-31. Language is integral to the construction of personal, socio-cultural, and socio-political identities. *Language Identity and Symbolic Culture* closely investigates the relationship between language and identities, offering a comprehensive yet progressive view of how linguistics relates to development and education both in theoretical and real-world applications. Progressing from a theoretical core examining the connection between language and individual identity, this book moves on to look at the wider socio-political discourse involving the marginalization and resistance of communities in the world. Beginning with the philosophical paradigms of language, Evans questions whether language shapes personal identities in its daily use or whether language is simply a tool for describing rather than creating the world. Extrapolating on this, the contributors utilise case studies from across the globe to see how these linguistic perspectives are played out in the real world, considering the role of language in issues surrounding power, colonization, marginalization, and education. *Language Identity and Symbolic Culture* offers a view of language identity conflicts around the world and an understanding of the opportunities of political and cultural emancipation created through language and open discourse.

**Language, Culture and Identity** Torben Vestergaard, 1999. Are people's identities an effect of their membership of linguistic, national, regional, and ethnic groups, and does such group membership create problems for intercultural communication? These questions are addressed in this collection of nine papers from the Third Annual Conference of the Nordic Network for Intercultural Communications. Answers are drawn from general theoretical, pedagogical, and empirical points of view. They agree on one fundamental issue: the language identity culture complex is dynamic and overlapping rather than static and isomorphic. This leads the contributors to touch upon the political implications of a relational and dynamic view on language, culture, human rights, and regional identities in a Europe with crumbling national boundaries. Among the topics are whether a person's identity is bound to a certain place and whether it is constant. Others discuss cross-cultural communication, a post-structuralist stance, different values ascribed to words and actions, the ability of

people to interact with different cultures the cross cultural language link in language teaching what language choice says about people and their attitudes towards each other when more than one language is available and a recognition that most of us are members of several cultural groups which can create incompatible values and attitudes Conflict, Exclusion and Dissent in the Linguistic Landscape Rani Rubdy, Selim Ben Said, 2016-04-29 This book explores the dynamics of the linguistic landscape as a site of conflict exclusion and dissent It focuses on socio historical economic political and ideological issues such as reflected in mass protest demonstrations to forge links between landscape identity social justice and power
