Issues & Answers. REL 2012-No. 136** Kim Anderson,Tiffany Harrison,Karla Lewis,2012 Based on interviews with state officials in the six Southeast Region states Alabama Florida Georgia Mississippi North Carolina and South Carolina this study describes state processes for adopting the Common Core State Standards a common set of expectations across states for what students are expected to know in English language arts and math and plans for implementing the common standards and aligning state assessment systems to them This study used interviews with state education agency staff in the Southeast Region to examine three research questions about the Common Core State Standards 1 What processes did the six Southeast Region states use for adopting the common standards 2 What is or will be the process for state implementation of the common standards and 3 How are the states planning to address the alignment of their assessment programs to the common standards The following are the key findings 1 Respondents in all six states reported that one step in the adoption process was state education agency review of the common standards to determine the

extent of alignment between the common standards and existing state standards and to gather information to disseminate to the public 2 Four states Florida Mississippi North Carolina and South Carolina did not adopt any state specific standards in addition to the common standards Alabama and Georgia did 3 Respondents in Florida and Mississippi reported that teachers in their state will begin teaching under the common standards in 2011 12 Respondents in Alabama Georgia and North Carolina reported that teachers will begin doing so in 2012 13 The respondent in South Carolina reported that teachers will begin doing so in 2013 14 States varied in how they will roll out their teaching timeline all at once for grades K 12 or phased in over time in different grades 4 All six states reported a general implementation process moving from developing curriculum and instruction resources to training educators to teaching the standards in classrooms All six states have dedicated 2011 12 to educator training Some states also plan to develop resources and materials in 2011 12 and Florida and Mississippi will also begin classroom implementation All six implementation timelines call for teaching the common standards before preparing new assessments aligned with them expected in 2014 15 5 All six states reported that state education agency staff are training educators on the new common standards with three states Alabama Georgia and North Carolina also involving staff at regional professional development agencies All six state respondents reported that their states will use a combination of approaches to deliver training including face to face training for school staff online sessions for district staff and teachers and train the trainer sessions for district teams who in turn will train teachers 6 In four states Florida Georgia Mississippi and South Carolina respondents reported that monitoring standards implementation will occur at the local level North Carolina will tie monitoring of local implementation of the common standards to the statewide evaluation of implementation of the state's Race to the Top initiative At the time of data collection Alabama had not yet decided whether the state education agency would monitor local implementation and 7 All six respondents reported that their state will follow the timeline and process of the assessment consortium to which they belong Alabama Florida Georgia Mississippi and South Carolina are members of the Partnership for Assessment of Readiness for College and Careers consortium Alabama North Carolina and South Carolina are members of the SMARTER Balanced Assessment Consortium Alabama and South Carolina members of both consortia have not yet decided which consortium's assessments they will use The findings of this study are limited by the small number of interviews conducted one per state and cannot be generalized beyond the study period since state level plans policies and procedures are continually evolving and may have been updated since the completion of data collection The report is nevertheless useful because it examines the six states ongoing work on the Common Core State Standards itself a new and evolving reform initiative nationwide Education leaders and policymakers can benefit from learning how other states are approaching this work Appended are 1 Study methods 2 Structured interview protocol and 3 Quick reference state information on the Common Core State Standards Contains 2 boxes 6 tables and 7 notes For Plans to Adopt and Implement Common Core State Standards in the Southeast Region States Summary Issues Answers
