*Modern Transnational Yoga* Hannah K. Bartos, 2021-03-23 This is the first book to address the social organisation of modern yoga practice as a primary focus of investigation and to undertake a comparative analysis to explore why certain styles of yoga have successfully transcended geographical boundaries and endured over time whilst others have dwindled and failed Using fresh empirical data of the different ways in which posture practice was disseminated transnationally by Krishnamacharya Sivananda and their leading disciples the book provides an original perspective The author draws upon extensive archival research and numerous fieldwork interviews in India and the UK to consider how the field of yoga we experience today was shaped by historic decisions about how it was transmitted The book examines the specific ways in which a small group of yogis organised their practices and practitioners to popularise their styles of yoga to mainstream audiences outside of India It suggests that one of the most overlooked contributions has been that of Sivananda Saraswati 1887 1963 for whom this study finds his early example acted as a cornerstone for the growth of posture practice Outlining how yoga practice is organised today on the world stage how leading brands fit into the wider field of modern yoga practice and how historical developments led to a mainstream globalised practice this book will be of interest to researchers in the field of Yoga Studies Religious Studies Hindu Studies South Asian History Sociology and Organisational Studies **Gurus of Modern Yoga** Mark Singleton, Ellen Goldberg, 2014 *Gurus of Modern Yoga* explores the contributions that individual gurus have made to the formation of the practices and discourses of yoga in today's world *Religion, Spirituality, and Public Health* Karen O'Brien-Kop, Suzanne Newcombe, 2025-10-14 *Religion Spirituality and Public Health* focuses on exploring the role of different ways of knowing or arriving at truth i.e. epistemes particularly those found in religious and alternative health milieus While biomedical solutions offer a dominant narrative these are articulated differently in global contexts Moreover individuals often draw upon alternative framings that are sometimes oppositional to and at other times engaged with directives from medical and governmental authorities The focus of this volume is worldviews and epistemes that are often marginalised or rejected in dominant discourses from shamanism in Korea to African Pentecostalism in Britain and from global online AntiVax narratives to traditional Siddha medicine in South India Detailed case studies explore the contested competing and strategically aligned relationships between mainstream and marginal epistemes between religious healing spirituality and biomedicine and between politics and belief These explorations promote greater insight into how marginalised religious epistemes are employed Which beliefs and practices are drawn upon to create meaningful and effective responses And how can we better understand the depth and breadth of these reactions to design more successful public health strategies for future global health crises **Yoga Journal**, 1996 For more than 30 years Yoga Journal has been helping readers achieve the balance and well being they seek in their everyday lives With every issue Yoga Journal strives to inform and empower readers to make lifestyle choices that are healthy for their bodies and minds We are dedicated to
