England launched a sporting saloon i e sedan called the Jaguar SS it set in motion an inexorable process that would lead to Britain s most beloved line of high performance automobiles The Complete Book of Jaguar covers the SS and all of the Jaguar s subsequent production models from the original SS Jaguar to today s F Type sports cars F Pace SUV X Type sedans as well as concept cars As with other books in the Complete Book Series author Nigel Thorley organizes the content chronologically with entries for each year Narratives for each discuss the cars and technology while spec tables highlight key technical and performance specifications Originally begun by a couple of motorcycle enthusiasts William Lyons and William Walmsley as a

firm called the Swallow Sidecar Company Jaguar would become one of the world's most celebrated automakers. In England's bleak postwar years Jaguar became a shining star first with its XK120 followed by the XK140 and XK150. Sporting sedans like the Mark 2 and Mark X set the bar for luxury four-door transport in the 50s and 60s. Then Jaguar stunned the world with the achingly beautiful E-Type in 1961, a genuine 150 mph super sports car. Along the way the company competed on road courses around the world going head-to-head with greats like Ferrari and Aston Martin. Though Jaguar lost its way periodically in the modern era, it has bounded back stronger than ever in the twenty-first century with a strong lineup including the new F-Type sports car and F-Pace SUV. The Complete Book of Jaguar is the essential guide to this important chapter in the history of sports and luxury automobiles.

Vincent Motorcycles Philippe Guyony, Very few motorcycles have carved a mark in history like the Vincent V-twin from its arrival in 1946 and up to the present day. On the road, in club racing, in drag races, or competing for land speed records, it dominated the motorcycle world, leading to the famous catchphrase coined by the factory: The World's Fastest Standard Motorcycle. It was a FACT, NOT a slogan. Images such as that of Rollie Free in swimming trunks, laying flat on his works-modified Black Shadow, and taking the American motorcycle land speed record at Bonneville in 1948, have now passed into posterity. In fact, the big Vincent was so ahead of its time that it continued to compete successfully, almost arrogantly, in racing until the mid-1970s against modern bikes. No other motorcycle in the world can claim this kind of achievement. Following the premature ending of Vincent production, Fritz Egli's 1967 Egli Vincent was the first chassis completely redesigned for a Vincent in 21 years. Egli's machine inspired numerous builders for several generations, and this book traces holistically the story of all those motorcycles in the broad context of the classic and modern history of the Vincent. Understand how the flame of passion still burns brightly today.
