To determine the student's final examination score, find the student's total test raw score in the column labeled "Raw Score" and then locate the scale score that corresponds to that raw score. The scale score is the student's final examination score. Enter this score in the space labeled "Scale Score" on the student's answer sheet.

Schools are not permitted to rescore any of the open-ended questions on this exam after each question has been rated once, regardless of the final exam score. Schools are required to ensure that the raw scores have been added correctly and that the resulting scale score has been determined accurately.

Because scale scores corresponding to raw scores in the conversion chart change from one administration to another, it is crucial that for each administration the conversion chart provided for that administration be used to determine the student's final score. The chart above is usable only for this administration of the Regents Examination in Living Environment.

Evolving Innovation Ecosystems Carol L. Stimmel, 2017-06-19 While emerging technologies create massive opportunity especially for investors and companies that seek more adaptable forms of economic growth than currently available value is held inert by traditional approaches patents and other closed systems Yet open data content and information may be the key to mass innovation for future technologies although they bring difficult challenges to private industry models that depend on the established ideas of intellectual property It is from this foundational observation that OpenXFORM a blending of the words Open and the engineering abbreviation for Transformation was developed and is explored and described in this book The intent of the model design is to synthesize an approach to the process of innovation inspired by natural systems and

human centric design processes OpenXFORM describes how an open system of innovation can adapt to the unregulated world of information data and content can decompose its own information to release to the open world and can discover ways to find the points of synergy among the studied and tested methodologies that put human relationships first This book presents an explicit innovation process that shows how to move from a breakthrough idea through a process that encourages innovative thinkers to test their assumptions validate hypotheses and tune and tweak their ideas not only to drive solutions for users but also to meet the strategic goals of their companies The anatomy of innovation through OpenXFORM contains the process for moving ideas from a flight of fancy to an explicit concept that is ready to produce
