Read the text and answer the questions 4 and 5:

William Shakespeare (1564 – 1616) was born at Stratford-upon-Avon in a house in Henley Street. This is preserved intact. His mother, Mary Arden, was one of the daughters of Robert Arden, a yeoman farmer of Wilmore; his father, John Shakespeare, was a Glover and wool dealer of good standing who held the office of Bailiff of the Borough in 1568. From the age of seven to about 14, he attended Stratford Grammar School receiving an excellent well-rounded education. At the age of 18 Shakespeare married Anne Hathaway, who was seven years his senior and three months pregnant. She was of 'yeoman' stock – her family owned a farm one mile west of Stratford in Shottery. He endured her until he could stand it no longer and fled to London to become an actor. He then became actor-manager and part-owner in the Black friars and afterwards the Globe Theatres. Shakespeare's acting career was spent with the Lord Chamberlain's Company, where he was a first-rate actor. The company was renamed the King's Company in 1603 when James succeeded to the throne. Among the actors in the group was the famous Richard Burbage. The partnership acquired interests in two theatres in the Southward area of London, near the banks of the Thames – the Globe and the Black friars. Shakespeare returned to Stratford for his later years where he died at the age of 52 and now lies at rest in his special grave at Holy Trinity Church.

Pediatric Sleep Medicine David Gozal, Leila Kheirandish-Gozal, 2021-04-15 This book provides comprehensive coverage of all aspects related to pediatric sleep and its associated disorders. It addresses the ontogeny and maturational aspects of physiological sleep and circadian rhythms as well as the effects of sleep on the various organ systems as a function of development. Organized into nine sections, the book begins with a basic introduction to sleep and proceeds into an extensive coverage of normative sleep and functional homeostasis. Part three then concisely examines the humoral and developmental aspects of sleep, namely the emerging role of metabolic tissue and the intestinal microbiota in regulation. Parts four, five, and six discuss diagnoses, methods, techniques in sleep measurement, and specific aspects of pharmacotherapy and ventilator support for the pediatric patient. Various sleep disorders are explored in part seven, followed by an in-depth analysis of obstructive sleep apnea in part eight. The book concludes with discussions on the presence of sleep issues in other disorders such as Down syndrome, obesity, cystic fibrosis, and asthma. Written by recognized leaders in the field, *Pediatric Sleep Medicine* facilitates an extensive learning experience for practicing physicians who encounter specific sleep-related issues in their practice.

Resourcing an Agroecological Urbanism Chiara Tornaghi, Michiel Dehaene, 2021-03-07 Foregrounding an innovative and radical perspective on food planning, this book makes the case for an agroecological urbanism in which food is a key component in the reinvention of new and just social arrangements and ecological practices. Building on state-of-the-art and participatory research on farming, urbanism, food policy, and advocacy in the field of food system transformation, this book changes the way food planning has been conceptualised to date and invites the reader to fully embrace the transformative potential of an agroecological perspective. Bringing in dialogue from both the rural and urban, the producer and consumer, this book challenges conventional approaches that see them as separate spheres whose problems can only be solved by a reconnection. Instead, it argues for moving away from a food-in-the-city approach towards an urbanism perspective in which the economic and spatial processes that currently drive urbanisation will be unpacked and dissected, and new strategies for changing those processes into more equal and just ones are put forward. Drawing on the nascent field of urban political agroecology, this text brings together: i) theoretical reconceptualisations of urbanism in relation to food planning and the emergence of new agrarian questions; ii) critical analysis of experimental methodologies and performing arts for public dialogue, reflexivity, and food sovereignty research; iii) experiences of resourceful land management, including urban land use and land tenure change; and iv) theoretical and practical exploration of post-capitalist economics that bring consumers and producers together to make the case for an agroecological urbanism. Aimed at advanced students and academics in
