DBT Skills Training Manual , *Stress Management Skills Training Course* Kathryn Critchley, 2010-05 Stress Management Skills Training Course Stress is all around us and affects us all but it isn't the same for everyone and each of us handles it differently One person's challenging pressure is someone else's debilitating stress Techniques that work well for you might not be so effective for me There is no single right answer and that's why we want to help you build your own personal toolbox of stress management skills Course Overview We start this course by taking an in depth look at stress exactly what it is and how to deal with it We show you how to identify your unhealthy stress and then give you a number of strategies to help you effectively manage and deal with any areas you want to change Remember not all stress is bad some stress is good and can be healthy plus it's often a great motivator Throughout the programme we take a holistic approach to stress management and consider both manager and employee in the workplace as well as how to cope outside work and maintain a healthy work life balance Topics include Identifying and fully understanding what stress is How stress affects our performance physical body and behaviour The importance of becoming aware of stress and then taking responsibility by implementing simple strategies to make desired changes to reduce stress Successful stress management By taking a more personal inward looking approach you can gain far more control and make far more changes than you can by simply waiting and hoping for the world to change around you By the end of this course you'll have a much deeper awareness of how you create your own stress and what you can do about it You'll discover that around 80 per cent of the stress you currently suffer maybe in your head You'll also find out what you can do to change it for good As part of this unique style of training we'll be looking at your beliefs and your own rule structures This will allow you to challenge yourself in a safe environment to really consider whether you need or would like to make a few adjustments to how you think about stress We'll also walk you through easy restructuring and change processes which will allow you to view things differently and start to make deep long lasting changes The course is a little different informal and lots of fun All we ask is that you open your mind take from the course what is right for you and enjoy About the author Kathryn Critchley With over 14 years experience of high pressure sales and management roles in the telecoms industry with organisations such as BT and Orange and over 6 years experience working for the NHS Kathryn understands the dynamics of team building change management employee motivation and organisational productivity She has provided training coaching or therapy for organisations such as the NHS
