Resources in Education ,1997 *Mathematics Teaching, Learning, and Liberation in the Lives of Black Children* Danny Bernard Martin,2010-06-21 With issues of equity at the forefront of mathematics education research and policy *Mathematics Teaching Learning and Liberation in the Lives of Black Children* fills the need for authoritative rigorous scholarship that sheds light on the ways that young black learners experience mathematics in schools and their communities This timely collection significantly extends the knowledge base on mathematics teaching learning participation and policy for black children and it provides new framings of relevant issues that researchers can use in future work More importantly this book helps move the field beyond analyses that continue to focus on and normalize failure by giving primacy to the stories that black learners tell about themselves and to the voices of mathematics educators whose work has demonstrated a commitment to the success of these children **Resources in Education** ,1996 Transform Your Math Class Using Asset-Based Teaching for Grades 6-12 Michael D. Steele,Joleigh Honey,2024-07-19 Foster a love of mathematics by creating a more inclusive and empowering learning environment through asset based teaching An asset based perspective on math education means starting with what students already know instead of focusing on what s missing This approach elevates student thinking and reasoning skills In this way educators acknowledge that all students bring prior experiences strengths talents and resources to the learning process and can contribute meaningfully in an authentic learning environment *Transform Your Math Class Using Asset Based Teaching for Grades 6 12* provides insight into asset based perspectives in mathematics education to create an environment where all students feel valued and capable of being doers of mathematics In the book Michael Steele and Joleigh Honey highlight the importance of using language instructional routines and systemic structure that positively impact student engagement their math identity and ultimately their outcomes Providing a wealth of knowledge and practical strategies that can be used to transform math classrooms into inclusive supportive and empowering learning environments this book Introduces an asset based perspective that focuses on students strengths assets and potential to learn mathematics Includes a variety of frameworks and tools that teachers can use to build and grow their sense of asset based perspectives Offers strategies for promoting a growth mindset in mathematics encouraging productive struggle in math and promoting equitable math instruction Supports teachers in reflecting on their decisions self awareness and self management Includes a companion online study guide to support teachers individually or as part of a professional learning community Adopting asset based perspectives is about movement over time not about flipping a switch This book paves the path for an asset based journey that ultimately helps to transform our math classrooms and advance all students learning and development *Distributed Leadership in Practice* James P. Spillane,John B. Diamond,2007-08-03 Distributed leadership has become an important term for educational policymakers practitioners and researchers in the United States and around the world but there is much diversity in how the term is understood Some use it as a synonym for democratic or

participative leadership This book examines what it means to take a distributed perspective based on extensive research and a rich theoretical perspective developed by experts in the field Including numerous case studies of individual schools and providing empirically based accounts of school settings using a distributed perspective this thorough volume Explores how a distributed perspective is different from other frameworks for thinking about leadership Provides clear examples of how taking a distributed perspective can help researchers understand and connect more directly to leadership practice Illustrates how the day to day practice of leadership is an important line of inquiry for scholars and for those interested in improving school leadership
