

Disaster Strikes in MS

reading passage

Disaster Strikes Mississippi

Name: _____ Period: _____

Directions: Read the following passage and answer the questions that follow.

How Natural Disasters Affect Rural and Urban Life in the South

Mississippi is known for its scenic beauty. Despite many tornadoes, floods, and hurricanes along the Gulf of Mexico, depending on the state, there is not as much damage as there is in the more developed Eastern, Midwestern, and Southern states. These disasters destroy property, buildings, crops, and affect the people who live, work, and play there.

Along the Mississippi Gulf Coast, the ocean can take all the property in many areas except for the area used for fishing, shopping, and recreation. When hurricanes hit, they can destroy the coastline, remove the beach, and leave the land without any protection from the ocean. The ocean can take away the land and leave the people who live there with no way to get to the beach. The ocean can also take away the land and leave the people who live there with no way to get to the beach. The ocean can also take away the land and leave the people who live there with no way to get to the beach.

In western and northern Mississippi, tornadoes are more common. These storms can destroy homes and crops. Tornadoes can also destroy the land and leave the people who live there with no way to get to the beach. The ocean can also take away the land and leave the people who live there with no way to get to the beach.

Disasters can destroy property, buildings, crops, and affect the people who live, work, and play there. Disasters can also destroy the land and leave the people who live there with no way to get to the beach. The ocean can also take away the land and leave the people who live there with no way to get to the beach.
