Seeing the Messiah Jonathan Kendall, 2025-07-14 Apparitions are real The evidence for their objective nature is immense and they are frequently not the transparent non physical manifestations depicted by Hollywood and popular culture Moreover some apparitions demonstrate blatantly physical characteristics to the point that they may be initially mistaken for real people Seeing the Messiah takes readers on a tour of case studies from eight well evidenced categories of apparitions that occur in nature These categories include visions of the bereaved those that linger in haunted houses figures that materialize during s ances and apparitions that represent religious icons such as the Blessed Virgin Mary What exactly are apparitions Visitations from the supernatural realm Dramas created through telepathy Dr Kendall speculates on how these strange intrusions into our reality might best be interpreted and the implications this has for the nature of reality itself Having established the characteristics of this phenomenon Dr Kendall examines claims that Menachem Mendel Schneerson i e the Lubavitcher Rebbe was raised from the dead with special scrutiny of the post mortem encounters of the Rebbe to his followers He then evaluates the historical data used to support Jesus resurrection in light of the same apparitional data Do those who see the Messiah merely experience apparitions

Jesus' Resurrection and Apparitions Jake O'Connell, 2016-11-03 Did Jesus rise physically from the dead or did he rise as a real non bodily apparition like those reported in the parapsychological literature In this book which is the first book length examination of the question in over fifty years Jake O Connell argues in favor of the physical resurrection hypothesis In order to do so he employs Bayes Theorem a mathematical theorem which encapsulates the way humans think when they analyze the probability of a hypothesis In addition he provides a thorough overview of the

evidence for the reality of apparitions of the dead **Evidence for God** William A. Dembski, Michael R. Licona, 2010-07-01

There have always been challenges to belief in God as he is revealed in the Bible and each new year seems to add more questions to the doubter's arsenal. In *Evidence for God* leading apologists provide compelling arguments that address the most pressing questions of the day about God, science, Jesus, the Bible, and more, including: Is Intelligent Design really a credible explanation of the origins of our world? Did Jesus really exist? Is Jesus really the only way to God? What about those who have never heard the gospel? Is the Bible today what was originally written? What about recently publicized gospels that aren't in the Bible and much more. The Words of Jesus in the Gospel of Thomas David W. Kim, 2021-07-01 This book offers a detailed analysis of the Gospel of Thomas in its historic and literary context, providing a new understanding of the genesis of the Jesus tradition. Discovered in the twentieth century, the non-canonical Gospel of Thomas is an important early text whose origins and place in the history of Christianity continue to be subjects of debate. Aiming to relocate the Thomasine community in the wider context of early Christianity, this study considers the Gospel of Thomas as a bridge between the oral and literary phases of the Christian movement. It will therefore be useful for religion scholars working on Biblical studies, Coptic codices, gnosticism, and early Christianity.
