Advanced Microeconomics for Contract, Institutional, and Organizational Economics W. Bentley MacLeod, 2022-04-05 A graduate textbook on microeconomics covering decision theory game theory and the foundations of contract theory with a unique focus on the empirical This graduate level text on microeconomics covering such topics as decision theory game theory bargaining theory contract theory trade under asymmetric information and relational contract theory is unique in its emphasis on the interplay between theory and evidence It reviews the microeconomic theory of exchange from the ground up aiming to produce a set of models and hypotheses amenable to empirical exploration with particular focus on models that are useful for the study of contracts institutions and organizations It explores research that extends price theory to the exchange of commodities when markets are incomplete discussing recent developments in the field Topics covered include the relationship between theory and evidence decision theory as it is used in contract theory and institutional design game theory axiomatic and strategic bargaining theory agency theory and the class of models that are considered to constitute

contract theory with discussions of moral hazard and trade with asymmetric information and the theory of relational contracts The final chapter offers a nontechnical review that provides a guide to which model is the most appropriate for a particular application End of chapter exercises help students expand their understanding of the material and an appendix provides brief introduction to optimization theory and the welfare theorem of general equilibrium theory Students are assumed to be familiar with general equilibrium theory and basic constrained optimization theory Theory and Applications, 4rd Edition 599 Dwivedi D.N., 2023 The objective of this book is to provide a comprehensive and authentic analysis of microeconomic theories and their applications to business decisions and to the determination of the general equilibrium of microeconomic variables Some significant changes have been made in this edition of the book by taking in view the modern syllabi of microeconomics recommended by the UGC and the universities in India Works of Joseph E. Stiglitz Joseph E. Stiglitz, 2019-06-06 This is the third volume in a new definitive six volume edition of the works of Joseph Stiglitz one of today s most distinguished and controversial economists Stiglitz was awarded the Nobel Prize in Economics in 2001 for his work on asymmetric information and is widely acknowledged as one of the pioneers in the field of modern information economics and more generally for his contributions to microeconomics Volume III contains a selection of Joseph E Stiglitz's work on microeconomics It questions well established tenets including many that are so fundamental they are almost taken for granted covering basic concepts of risk and markets the management of risk the theory of the firm the economics of organization and theory of human behaviour Stiglitz reflects on his work and the field more generally throughout the volume by including substantial original introductions to the Selected Works the volume as a whole and each part within the volume Early Childhood in the Anglosphere Peter Moss, Linda Mitchell, 2024-05-09 Written by two leading international experts Early Childhood in the Anglosphere offers a unique comparison of early childhood education and care services and parenting leave across seven high income Anglophone countries Peter Moss and Linda Mitchell explore what these systems have in common including the dominance of childcare services widespread privatisation and marketisation and weak parenting leave They highlight the substantial failings of these systems and the causes and consequences of these failings But this book is ultimately about hope about how these failings might be made good through major changes In other words it is about transformation why transformation is both necessary and possible at this particular time what transformation might look like and how it might happen Part of that transformation concerns the need for new policies and structures but even more it is about how the Anglosphere thinks about early childhood The authors call for turning away from conceptualising early childhood services as childcare and marketised businesses selling commodities to parent consumers and for reconceptualising them as education imbued with an ethics of care a public good available as a right to all children and families and complemented by well paid individual entitlements to parenting leave Using examples from the Anglosphere and beyond and in a context of converging crises the book argues that transformation of thinking
