Take one half-salt packet from the shipping case the same time. (All light or half-salt packets will be floating, but I've noticed that one of the packets will float better if you wait 1 minute. I assume that with packets, we're doing it just "right" on the strength of your device and cannot be sure. Please let me know.) (100% and 100% successful.)

- 1. The outside phone cannot find the wireless network**

  - Check whether the outside phone is powered on or not
  - Check the status of the light: does it show abnormality? If the wireless network will connect later, turn off the wireless phone. Or, please reset both the network and the network device in your phone.
- 2. There is something wrong with the wireless network while using it**

  - Please try to re-connect with the outside phone after turning it off and restarting the network
  - Check the charging status of the network by pulling down the charging bar: will the red LED indicator go on. Then you may see why the network is abnormal with the reason below.

- The wireless network always disconnects or make some other connection to the mobile device.
- The wireless network must either be in the plane or adjacent.
- There is an interaction between the mobile device and the wireless network, or the wireless device is located near edge. Please do not use the wireless network with your laptop in order to maximize the continuous capacity of the laptop. Please try to keep the wireless network and the mobile device in the same direction.
