Value in Health Care Institute of Medicine, 2010-05-03 The United States has the highest per capita spending on health care of any industrialized nation Yet despite the unprecedented levels of spending harmful medical errors abound uncoordinated care continues to frustrate patients and providers and U S healthcare costs continue to increase The growing ranks of the uninsured an aging population with a higher prevalence of chronic diseases and many patients with multiple conditions together constitute more complicating factors in the trend to higher costs of care A variety of strategies are beginning to be employed throughout the health system to address the central issue of value with the goal of improving the net ratio of benefits obtained per dollar spent on health care However despite the obvious need no single agreed upon measure of value or comprehensive coordinated systemwide approach to assess and improve the value of health care exists Without this definition and approach the path to achieving greater value will be characterized by encumbrance rather than progress To address the issues central to defining measuring and improving value in health care the Institute of Medicine convened a workshop to assemble prominent authorities on healthcare value and leaders of the patient payer provider employer manufacturer government health policy economics technology assessment informatics health services research and health professions communities The workshop summarized in this volume facilitated a discussion of stakeholder perspectives on measuring and improving value in health care identifying the key barriers and outlining the opportunities for next steps

Cost Effectiveness in Medical Education Kieran Walsh, 2021-04-05 With economic winter facing many healthcare and health education budgets the high costs of medical education are bringing it under close scrutiny However the costs of not providing high quality medical education not least human costs in morbidity and mortality from medical error are also high presenting medical educators funding managers policy makers and economists with an unenviable dilemma To add to their difficulties remarkably little has been written on cost effectiveness in medical education including how to calculate costs how to get maximal value for money

and even what constitutes value for money In this book the first of its kind world leading experts comprehensively outline what is known about cost effectiveness in each of their fields Undergraduate postgraduate and continuing professional education are all explored as are e learning simulation cost benefit analysis and numerous other areas Lecturers and researchers in medical education clinical tutors and educational supervisors and appraisers managers responsible for funding medical education and health economists and health policy makers and shapers will find this an invaluable resource An excellent analysis and explanation of an under explored subject from the Foreword by Sir Liam Donaldson **Financial Management for Medical Groups** Ernest J.
