

# Analysis of the NEET MDS 2023 Exam Paper

Based on student recollection, [NEET MDS 2023](#) exam paper analysis is currently available. The analysis, it should be mentioned, is based on the responses of students who took the test on March 1. Applicants were asked a series of questions, including the general level of difficulty, questions from a specific topic, topic-wise weighting, predicted cutoff, etc., and the analysis is based on those questions. The overall level of difficulty was moderate, according to the pupils. Most of the questions were clinical in nature, long, and time-consuming. Medical and pharmaceuticals were the two subjects that generated the most questions.

## Analysis of the NEET MDS question paper from last year.

According to the students, the exam's overall difficulty ranged from moderate to severe. It was challenging to answer all 240 questions in the allotted time due to the length of the question paper. One of the students complained that the NEET MDS 2022 paper was time-consuming and long. Part B of the exam, in the opinion of the students, was more difficult than Part A.
