

# Macroeconomics I: European perspective

## Introductory lecture

### Macroeconomics

- The big picture
- What happens to (parts of) entire economies?
- Income, growth, unemployment, inflation, etc.
- Relationships between these variables
- Globalisation
  - o Goods, services, capital, people
- Economic shocks
- Government policies
- Importance of institutions
  - o European Union, exchange rate mechanism, labour markets, etc.

### Output and time

"The most important goal of macroeconomics is to develop an understanding of what makes income differ between countries and what makes them grow or fluctuate over time" (Gartner, p. 36)

- Analysing equilibrium
- Comparing equilibriums
- How do countries move between equilibriums?
- Different time frames
  - o Different processes
  - o Different variables
  - o Different policies

### Short and long run

- Analysis and explanations depend on time frame
- Key: what do we assume about prices?

Quantity equation  $M \times V = P \times Y$

(V assumed fixed)

Long run: Y determined by production factors  $\Delta M = \Delta P$

Short run: Y determined by M

$\Delta M = \Delta Y$  P assumed fixed

### Aggregate supply curve

Two cases:

Y-axis = Output = GDP

## **Macroeconomics A European Perspective Answers:**

*Macroeconomics in Context* Sebastian Dullien, Neva Goodwin, Jonathan Harris, Julie Nelson, Brian Roach, Mariano Torras, 2017-08-23 *Macroeconomics in Context A European Perspective* lays out the principles of macroeconomics in a manner that is thorough up to date and relevant to students With a clear presentation of economic theory throughout this latest addition to the bestselling *In Context* set of textbooks is written with a specific focus on European data institutions and historical events offering engaging treatment of high interest topics including sustainability Brexit the euro crisis and rising inequality Policy issues are presented in context historical institutional social political and ethical and always with reference to human well being This book is divided into four parts covering the following key issues The context of economic analysis including basic macroeconomic statistics and tools The basics of macroeconomic measurements including GDP inflation and unemployment as well as alternative measures of well being and the particular structures of the European economies Methods for analyzing monetary and fiscal policy including an in depth coverage of the instruments and approaches of the European central bank and some coverage of an open economy The application of the tools learnt to selected macroeconomic issues such as the euro crisis the global financial crisis public debt global development and environmental sustainability Far more than any other existing macroeconomic textbook this book combines real world relevance of the topics covered with a strong focus on European institutions and structures within an approach that explains multiple economic paradigms This combination helps to raise students interest in macroeconomics as well as enhance their understanding of the power and limitation of macroeconomic analysis Visit [http://www.bu.edu/eci/education/materials/textbooks/macroecconomics\\_in\\_context\\_a\\_european\\_perspective/](http://www.bu.edu/eci/education/materials/textbooks/macroecconomics_in_context_a_european_perspective/) for online resources for both lecturers and students A video of a panel discussion about the book can be found at <https://youtu.be/xjHJrW9WP44>

**Price and Financial Stability** David Harrison, 2018-05-15 Why are financial prices so much more crisis prone and unstable than real economy prices Because they are doing different things Unlike real economy prices rooted in the real goods and services produced and exchanged financial prices attempt to value future income flows from financial and capital assets These valuations fluctuate erratically because expectations of the future fluctuate and large liquid financial markets can amplify rather than correct these effects The book builds on the insights of economists Frank Knight and John Maynard Keynes that uncertainty of the future is essential to understand the processes of economic production and capital investment and adds to this Karl Popper's general explanation of how expectations of an uncertain future are formed and tested through a trial and error process Rather than relying on fluctuating financial prices to provide a guide to an uncertain future it suggests a better approach would be to adopt the methods common to other branches of science and create testable falsifiable theories allowing reasonable predictions to be made In finance the elements of one such theory could be based on the concept of forecasting yield from capital assets which is a measurable phenomenon tending towards aggregate and long term stability and where there is a plentiful supply of historic data By

methods like this financial economics could become a branch of science like any other To buttress this approach the widely accepted public policy objective of promoting real economy price stability could be widened to include financial price stability

Macroeconomics David C. Colander,1997-08     *Macroeconomic Theory and the Eurozone Crisis* Alain Alcouffe,Maurice Baslé,Monika Poettinger,2018-10-11 The financial crisis of 2007 required the economics discipline to thoroughly re evaluate its prevailing theories about economic cycles and economic growth With a focus on Europe this volume identifies the latest strands of research on business cycles monetary theory the evolution of social policies and public spending and the institutional context of the European Union It also considers whether these new ideas could have helped us avoid the crisis and how they might reshape the current economic paradigm This book will be of interest to advanced students and researchers in European economics macroeconomics and economic history     China in the Global Economy Income Disparities in China An OECD Perspective OECD,2004-09-21 China has experienced spectacular economic growth since 1978 averaging 8 to 9% per year However economic disparities have also widened very significantly This book presents papers exploring the causes     *Nouvelles universitaires européennes* ,1997     European Economists of the Early 20th Century: Studies of neglected thinkers of Belgium, France, The Netherlands and Scandinavia Warren J. Samuels,1998 European economists of the early 20th v 1     *The European Economy in Perspective* Jeffery Ian Round,1994 This volume brings together a wide ranging set of perspectives on economic policy in Europe past present and future Compiled as a tribute to Edward Nevin an early critical supporter of British entry to the EEC and much of whose work lay in the fields of regional economics and monetary policy     **The Euro** Jesper Jespersen,2016-11-21 This book takes a close look at macroeconomic imbalances within the Eurozone and explores the profound consequences the introduction of the European Monetary Union EMU has had on Euro area countries Particular attention is given to balance of payments deficits and surpluses and the profound difficulties of rebalancing the Euro area Throughout the chapters the author argues that the EMU has failed to support an optimal currency area with the correct institutional arrangements due to misunderstandings at a macroeconomic level The author also sheds light on the stability pact and the resulting macroeconomic trap which has left a number of Eurozone countries with devastatingly high rates of unemployment The book argues that by disregarding important macroeconomic imbalances Euro monetarists have derailed the entire Eurozone project to such an extent that it is at risk of falling apart Key chapters discuss the establishment of the EMU from a Euro realist perspective and the role of the European Central Bank in rebalancing financial markets The concluding chapter looks ahead to the future of the Euro and proposes necessary institutional solutions to the macroeconomic problems it is currently facing Scholars and students with an interest in the current economic disarray within the Eurozone will find this work thought provoking and highly informative     **Real and Financial Sectors in Post-Pandemic Central and Eastern Europe** Bojana Olgić Draženović,Vesna Buterin,Stella Suljić Nikolaj,2022-05-11 This book offers new insights into the real and financial sectors in the post pandemic European

Union with a specific focus on the countries of Central and Eastern Europe and a special reference to Croatia The contributors examine the timeliness justification and appropriateness of the measures taken in response to the deteriorating economic conditions and the associated outcomes They further discuss various aspects of economic financial and energy policy While doing so they focus on two important issues The first is an analysis and assessment of the financial development and performance of the real sector The second is an insight into the institutional dimensions of the COVID 19 pandemic including the discussion of obstacles and opportunities for recovery in the near future The topics covered in this book include but are not limited to unconventional monetary policy financial cycles fiscal incentives institutional development and institutional quality the banking system real estate markets competitiveness pension systems financial regulation energy markets environmental social and governance ESG factors as well as agricultural policy Therefore this volume will appeal to researchers students and scholars of finance and economics as well as policy makers interested in a better understanding of real and financial sectors economic policy and post pandemic economic development in Central and Eastern Europe

*Macroeconomics* Robert James Gordon, James Allen Wilcox, 1998 The real world applications examples and theories cited in this textbook on Macroeconomics place economic issues in an international context *Macroeconomics* Paul Anthony Samuelson, William D. Nordhaus, 1989 **Crisis in the Eurozone** M. Baimbridge, P. Whyman, 2014-12-04 This book explores the background of the eurozone crisis outlining a number of potential solutions It attempts to discover if the problems could have been anticipated and examines how well have the fiscal EMU rules been adhered to and how appropriate they are

**European Economy**, 2004 **The Political Economy of Monetary Union** Paul de Grauwe, 2001 This collection brings together both classic articles which have laid the foundations for the theory of optimum currency and the resulting empirical literature Articles are presented in sections on the theory of optimum currency areas empirical analysis of optimum currency areas fiscal policies in a monetary union the central bank in a monetary union and issues of transition to monetary union Most articles were originally published in the 1990s The editor teaches international economics at the University of Leuven Belgium c Book News Inc *Macroeconomics* J. Bradford De Long, Arman Mansoorian, Leo Michelis, 2003-08 *Macroeconomics* First Canadian Edition offers a new approach to this subject Drawing upon their vast experience in teaching and research the authors have written an intermediate macroeconomics book that sets the standard for books in this third millennium De Long provides a streamlined presentation of material traditional and modern resulting in a more understandable and comprehensive book This edition features five changes to the standard presentation of modern macroeconomics Provide a more student friendly way of learning growth theory Provide sufficient coverage of growth facts so that students learn the how and why of both growth over time and growth across countries Treat the economy as open from the beginning of the book Deal with interest rates not money stocks Increased focus on the Phillips curve These changes while not radical are shifts in emphasis and changes of focus They do not require recasting of courses but they are very

important in bringing the organization of the book into line with what students learning macroeconomics today need to know

**Revival: Gaining Advantage from Open Borders (2001)** Remigio Ratti, 2017-07-28 This title was first published in 2001 The contributors to this book examine how changing political borders and disappearing obstacles in transport have led to diverging patterns of interaction between European regions with different outcomes trajectories are identified and analyzed

**Principles of Macroeconomics** Fred M. Gottheil, 2005 This newly updated edition of a highly regarded the principles of macroeconomics text provides your students with the most up to date information available Cases tables data and more were updated to reflect 2003 data The text also has a four color internal and full supplement package that complements the text s superb conversational style which engages students like none other Principles of Macroeconomics 4e represents the results Fred Gottheil s career as an outstanding professor and author This edition is maintains the proven structure and style of previous editions while updating content to make it even more valuable to professors and students alike The author continues to use familiar stories illustrations scenarios and a direct to student writing style to appeal to students interests The narrative is built around questions which cut the distance between the student and the unfamiliar concepts of economics Instead of covering hundreds of topics superficially the book presents basic concepts in depth and develops economic analysis step by step The result learning economics becomes relative interactive and appealing versus mere passive course participation

**The Development and Reform of Financial Systems in Central and Eastern Europe** John Bonin, István P. Székely, 1994 The introduction of effective competitive and innovative financial systems will be a key factor in the economic success or failure of Central and Eastern Europe This important volume presents a comprehensive up to date analysis of the development of financial systems in the region with contributions from leading researchers and bankers An overview of recent developments and discussion of some of the major issues including central bank independence bank privatization and bankruptcy regulations is followed by discussion of the conditions for and likely consequences of financial liberalization in Central and Eastern Europe The contributors draw upon the experience of Austria and Finland two West European countries that recently accomplished full financial liberalization The final section includes a series of specific regional studies on the results and problems of financial reform in the Czech Republic Hungary and Poland three leading reforming countries and Bulgaria one of the second wave of transitional economies Providing an authoritative review of current trends The Development and Reform of Financial Systems in Central and Eastern Europe makes a unique contribution to a neglected area in the literature on economic transformation and development in former command economies

**The American Economic Review**, 1992 Includes papers and proceedings of the annual meeting of the American Economic Association Covers all areas of economic research
