## **Made In Korea:**

**What Made Korea's Rapid Growth Possible?** Jungho Yoo, 2020-02-27 Korea's experience of rapid economic growth represents both hope and a challenge to many developing countries. The conventional wisdom inside and outside Korea has been that the government's policies such as export promotion, industrial targeting and so on made the rapid growth possible. This book investigates the effects of the policies and concludes that Korea's growth experience does not corroborate the view. Rather, it points to the tremendous growth in size of the world market as an important factor that has been overlooked in the discussion of nations' economic growth in the post World War II era. It was roughly 100 times bigger in the early 1960s than it was in the middle of the First Industrial Revolution. The potential gains from trade were that much greater while the Korean economy had not been realizing the potential gains it began to as soon as a major reform of the foreign exchange system in 1961 removed the impediments to foreign trade. Explosive export expansion and rapid growth of the economy immediately followed. The Korean Miracle may be better understood as a process whereby the economy realized its huge potential.

**Made in Korea** Sarah Suk, 2021-05-18 Two entrepreneurial Korean American teens butt heads and fall in love while running competing Korean beauty businesses at their high school. Renaming Plants and Nations in Japanese Colonial Korea Jung Lee, 2025-04-10 This book studies a striking example of intensely negotiated colonial scientific practice: the case of botanical practice in Korea during the Japanese colonisation from 1910 to 1945. The shared aim of botanists who encountered one another in colonial Korea to practise modern Western botany is successfully revealed through analysis of their fieldwork and subsequent publications. By exploring the variations in what that term should mean and the politically charged nature of the interactions between both imperial and colonial players, it reveals how botanists of the region created a form of scientific practice that was neither clearly Western nor particularly modern. It shows how the botany that evolved in this context was a product of colonially resourced, globally connected practice immersed in intertwined traditions rather than simply a copy of modern Western botany. Utilizing extensive primary sources, this book will be of interest to students and scholars of the history of science, colonial Korean history and environmental history. **Korea Review**, 1906 *Recent Security Developments in Korea* Paul Wolfowitz, 1985 The Korea Review, 1904 The Truth about Korea Carlton Waldo Kendall, 1919 **The Tragedy of Korea** Fred Arthur McKenzie, 1908 *Annual Report* Smithsonian Institution, 1892

**Made in Korea** Hyunjoon Shin, Seung-Ah Lee, 2016-09-13 *Made in Korea: Studies in Popular Music* serves as a comprehensive and thorough introduction to the history, sociology and musicology of contemporary Korean popular music. Each essay covers the major figures, styles and social contexts of pop music in Korea, first presenting a general description of the history and background of popular music in Korea, followed by essays written by leading scholars of Korean music that are organized into thematic sections: History, Ideology, Genres and Styles, Artists and Issues.
