 Productivity improvement means doing the same thing in a better and smarter way and continuing to work on improving the
 techniques for an individual or a team on the shopfloor And this continuous improvement is the only way to achieve high
 profitability Garment manufacturing involves number of operations carried out by different operators and all the activities
 starting from cutting sewing till finishing are different from each other in terms of the way they are performed and the
 technology being used for them So it is always advisable to look at the working of four aspects and that are material machine
 men and method However there are ways to build higher productive efficiencies which result in reduction in cost and bring
 in higher profit margin The book discusses different case studies from the shopfloor showing productivity improvements
