Meade Ngc 60a Telescopes Owners Manual:

A User's Guide to the Meade LXD55 and LXD75 Telescopes Martin Peston, 2010-04-28 I have owned telescopes for over 25 years since I was a young lad I purchased an LXD55 AR 6 Refractor in 2002 and was one of the first to own one in the UK I am also a proud owner of an LXD75 SC 8 Armed with these two very different telescopes I have spent many hours searching the skies for interesting objects using Meade's Autostar Goto facility My motivation to write a book about the LXD Goto telescope series first came from comments about an LXD55 AR 6 Refractor review that was published on the LXD55.com website From then on I have had regular emails from people asking technical questions about the telescope and which model is best suited for them Whilst attending Star parties in the UK I found that many LXD owners would struggle to use them even at a basic level especially if they have never owned or used an equatorially mounted Goto telescope before Since the first LXD55 models came out in early 2002 owners have struggled to find useful information to help them use the telescopes to the best advantage There have been mixed reactions about its quality and performance Hence this book is directed towards those who are new to Goto and the LXD telescope **The ShortTube 80 Telescope** Neil T.

English, 2019-09-14 Welcome to the first comprehensive guide to one of the world's most popular telescopes the ShortTube 80 refractor With its ultra portability versatility and relatively low cost this telescope continues to delight generations of stargazers Starting in the field under a dark sky the author walks the reader through a typical evening of stargazing where the ShortTube 80 brings many astronomical treasures into focus From there he provides an in depth account of the optical properties of the ShortTube 80 refractor and the accessories and mounting arrangements that maximize its potential both as a spotting scope by day and an astronomical scope by night The main text discusses how the versatile ShortTube 80 can be used to study deep sky objects the Sun the Moon bright planets and even high resolution projects where the instrument's features can be optimized for the observation of tight double and multiple stars It explores how the ShortTube 80 can image targets using camera phones DSLRs and dedicated astronomical CCD imagers Packed with practical advice gained from years of firsthand stargazing experience this book demonstrates exactly why ShortTube 80 has remained a firm favorite among amateur astronomers for over three decades and why it is likely to remain popular for many years to come **Star**

equipment with detailed examples showing how best to use them In addition to providing in depth knowledge about every type of astronomical telescope and highlighting their strengths and weaknesses two chapters offer advice on making visual observations of the Sun Moon planets stars and galaxies All types of modern astronomical imaging are covered with step by step details given on the use of DSLRs and web cams for solar lunar and planetary imaging and the use of DSLRs and cooled CCD cameras for deep sky imaging **Telescope Making**,1988 [Astronomy Now](#) ,2008 *Astronomy* ,1997 *Deep Sky* ,1990 [Sterne und Weltraum](#) ,1995 **Instruction Manual** Meade Instruments Corp,199? *A User's Guide to the Meade LXD55 and LXD75 Telescopes* Martin Peston,2011-09-17 This book offers a comprehensive introductory guide to choosing and using a series LXD55 or LXD75 computer controlled goto telescope containing a wealth of useful information for both beginners and more advanced practical amateur astronomers The manufacturer s manuals are not nearly detailed enough to be of real help to beginners No other book offers advanced techniques for more experienced LXD series users
