SETTING INSTRUCTIONS

TO SET TIME

- Unscrew the crown by turning it in a counterclockwise direction to release it. Pull the crown out two steps to set the hour and minute hands. Turn the crown to move the hands forward to correct the time while observing the 24 hour hand so as to properly set the time for AM or PM. Push the crown in to finalize setting.

TO SET DATE

- After the correct time has been set (24-hour hand indicating whether time is AM or PM) and the crown is pulled out one step (intermediate position), rotate the crown in the counterclockwise direction to set the date. Push crown in against the case and while continuing to apply pressure, turn the crown clockwise until it is screwed tightly against the case.

CHANGING MODES

- To switch to the chronograph mode while in normal time display mode, (mode hand on DV), press and hold down **A** for 2 seconds and mode and function hands move to zero position.
- To switch back to normal time display mode from chronograph mode, press and hold **A** for 3 seconds. Watch switches to dive standby mode automatically when water sensor is wet. To switch back to time after dive, press and hold **B** for 3 seconds.
- To call up maximum depth memory of the last dive, while in the time or dive mode, press **B**. Depth indicator hand will move to show the deepest point of the last dive. Press and release **B** again to return the depth hand back to its previous position.

TO USE CHRONOGRAPH

- Hold **A** down for 2 seconds while in normal time display mode to switch to chronograph mode. Function hand now becomes chronograph sweep second hand, mode indicator hand becomes minute register hand and small second hand always shows running seconds.
- Press and release **B** to start or stop chronograph. When stopped, press **A** to reset hands to zero. If either of the two hands does not index to zero, please see "all reset" note in the instruction manual. To return to normal time display mode from chronograph mode, press and hold **A**.
- Chronograph does not operate simultaneously with time or dive mode, so if mode is switched from chronograph, chronograph data is deleted.

TO USE DEPTH METER

- Watch will automatically switch to dive standby mode from either normal time or chronograph mode whenever water sensor gets wet. Mode hand moves to "DV" and depth indicator hand will move to "0" feet. (If not, please refer to instruction manual for "all reset" procedure). Before the watch goes to dive standby mode and before diving, make sure "screwlock" crown is tightened securely against the case. Watch is now ready for diving.
- To read the maximum depth memo for the last dive (after the watch is dried off), press **B** while in time or dive mode and depth indicator hand will point to the r maximum depth of the last dive. Press **B** again to return to the previous mode.
- Depth meter and chronograph cannot be used simultaneously so please use the elapsed-time indicator (ETI) bezel ring to keep track of elapsed dive time. (See instruction manual). It is recommended that there be a diving unless power level indicator is at level 2.

For further instructions, see instruction manual.
