MD 1

For many years, boat-owners have looked forward to the day when the economical and reliable running qualities of Diesel engines would be available for small boats.

After years of research and test-running both in the laboratory and in boats, Penta now proudly presents the MD 1.

The MD 1 is a single-cylinder, four-stroke, cold-starting Diesel engine with direct injection. This engine — which is water-cooled — has an output of 5 h.h.p. at 2000 r.p.m.

The MD 1 has been designed and built to more than satisfy the demands made on a marine engine which must stand up to the most grueling conditions of operation. One of the great advantages on the MD 1 is the new Penta REVERSE AND REDUCTION GEAR. This is described in more detail on the opposite page. Since the MD 1 is fitted with a combined electric starter motor and dynamo (dynamart), it is the ideal auxiliary engine for sailing craft.
