Multi Media Autoresponder:

Communications and Multimedia Security II Patrick Horster, 2016-01-09 In multimedia and communication environments all documents must be protected against attacks The movie Forrest Gump showed how multimedia documents can be manipulated The required security can be achieved by a number of different security measures This book provides an overview of the current research in Multimedia and Communication Security A broad variety of subjects are addressed including network security attacks cryptographic techniques healthcare and telemedicine security infrastructures payment systems access control models and policies auditing and firewalls This volume contains the selected proceedings of the joint conference on Communications and Multimedia Security organized by the International Federation for Information processing and supported by the Austrian Computer Society Gesellschaft fuer Informatik e V and TeleTrust Deutschland e V The conference took place in Essen Germany in September 1996

The Hutchinson Dictionary of Computing,

Multimedia and the Internet, 1998 Using a computer can no longer be considered the province of the experts The prices of computers continue to tumble and sophisticated software comes free as standard issue but how many people know how to use what is available even though children take to computers without thinking twice many people even those who use computers in a limited way shy away from learning any more The manual produced by manufacturers do not usually help and are often even more confusing than the machines themselves This text is published to help cut through to the most useful information needed All the essential terms are explained and the text is enhanced with illustrations throughout

Tech
