Medieval Heresy and the Inquisition Arthur S. Turberville, 2016-12-13 Arthur S Turberville details the Vatican s doctrine underlying the violent Roman Inquisition which was used to suppress all opponents to the Roman Catholic Church s well established religion This book is not a detailed history of the Inquisition but rather an excellent survey of literature on the Church s doctrines on this practice Medieval Heresy and the Inquisition Arthur Stanley Turberville, 1921 Medieval Heresy & the Inquisition

Medieval Heresy the Inquisition A. S. Turberville, 1964 **Mediaeval Heresy and the Inquisition** Arthur Stanley Turberville, 2020-05-23 The aim of this book is to provide within a short space and primarily for the general reader an account of the heresies of the Middle Ages and of the attitude of the Church towards them The book is therefore a brief essay in the history not only of dogma but inasmuch as it is concerned with the repression of heresy by means of the Inquisition of judicature also The ground covered is the terrain of H C Lea s immense work A History of the Inquisition of the Middle Ages but that was published more than thirty years ago and since then much has been written though not indeed much in English on the medi val Inquisition and cognate subjects As the present work has been undertaken in the light of some of these more recent investigations it is hoped that it may be of utility to rather closer students as well as to the general reader as a review of the subject suggested by the writings of Lea s successors both partizans and critics At the same time this book does not profess to be a history even the briefest of the medi val Inquisition Its main concern is with doctrine and for that reason chapters on Averrho sm and on Wyclifitism and Husitism have been included though they have little bearing on the Inquisition The entire subject on both its sides is complex and highly controversial Probably no conceivable treatment of it could commend itself to all tastes be accepted as impartial by the adherents of all types of religious belief It can however at least be claimed that this work was begun with no other object in view than honest enquiry with no desire whatever to demonstrate a preconceived thesis or draw attention to a particular aspect of truth Arthur Stanley Turberville Mediaeval Heresy and the Inquisition A S Tuberville M a, 2017-02-22 The Inquisition was a group of institutions within the government system of the Catholic Church whose aim was to combat heresy It started in 12th century France to combat religious sectarianism in particular the Cathars and the Waldensians Other groups investigated later included the Spiritual Franciscans the Hussites followers of Jan Hus and Beguines Beginning in the 1250s inquisitors were generally chosen from members of the Dominican Order replacing the earlier practice of using local clergy as judges The term Medieval Inquisition covers these courts up to mid 15th century During the Late Middle Ages and early Renaissance the concept and scope of the Inquisition significantly expanded in response to the Protestant Reformation and the Catholic Counter Reformation It expanded to other European countries resulting in the Spanish Inquisition and Portuguese Inquisition The Spanish and Portuguese operated inquisitorial courts throughout their empires in Africa Asia and the Americas resulting in the Peruvian Inquisition and Mexican Inquisition The Spanish and Portuguese inquisitions focused particularly on the issue of Jewish anusim and Muslim converts to Catholicism partly because these minority groups were more numerous in Spain and Portugal than in many other parts of Europe and partly because they were often considered suspect due to the assumption that they had secretly reverted to their previous religions Except within the Papal States the institution of the Inquisition was abolished in the early 19th century after the Napoleonic Wars in Europe and after the Spanish American wars of

independence in the Americas The institution survived as part of the Roman Curia but in 1908 was given the new name of Supreme Sacred Congregation of the Holy Office In 1965 it became the Congregation for the Doctrine of the Faith

Heresy, Inquisition and Life Cycle in Medieval Languedoc Chris Sparks, 2014 A fresh examination of the Cathar heresy using the records of inquisitorial tribunals to bring out new details of life at the time Religion amongst ordinary men and women in Languedoc in the High Middle Ages is the subject of this book Focusing on laypeople attached to the Cathar movement it investigates the interplay between heresy and orthodoxy and between spiritual and secular concerns in people's lives charting the ways in which these developed through life cycle childhood youth marriage and death This period was one of great upheaval in the region brought about by the Church's response to the perceived threat of heresy and the book also explores the effects of the Albigensian Crusaders and the inquisitors who followed in their wake It draws on a large range of evidence including civic and ecclesiastical legislation contemporary literature and chronicle and broader scholarship on the region but its principal sources are the records of inquisitorial tribunals that operated between 1190 and 1330 transcripts of interview and sentencing which represent the closest thing that exists to an oral history of the period The author teases out the vibrant detail with which these archives document people's lives developing and illustrating his argument through the recounting of their stories Chris Sparks gained his doctorate from the University of York he now works at Queen Mary University of London

Heresy and inquisition in France, 1200-1300, 2017-01-01 Heresy and inquisition in France 1200 1300 is an invaluable collection of primary sources in translation aimed at students and academics alike It provides a wide array of materials on both heresy Cathars and Waldensians and the persecution of heresy in medieval France The book is divided into eight sections each devoted to a different genre of source material It contains substantial material pertaining to the setting up and practice of inquisitions into heretical wickedness and a large number of translations from the registers of inquisition trials Each source is introduced fully and is accompanied by references to useful modern commentaries The study of heresy and inquisition has always aroused considerable scholarly debate with this book students and scholars can form their own interpretations of the key issues from the texts written in the period itself

Inquisition and Medieval Society James B. Given, 2018-08-06 James B Given analyzes the inquisition in one French region in order to develop a sociology of medieval

politics Established in the early thirteenth century to combat widespread popular heresy inquisitorial tribunals identified prosecuted and punished heretics and their supporters The inquisition in Languedoc was the best documented of these tribunals because the inquisitors aggressively used the developing techniques of writing and record keeping to build cases and extract confessions Using a Marxist and Foucauldian approach Given focuses on three inquiries what techniques of investigation interrogation and punishment the inquisitors worked out in the course of their struggle against heresy how the people of Languedoc responded to the activities of the inquisitors and what aspects of social organization in Languedoc either facilitated or constrained the work of the inquisitors Punishments not only inflicted suffering and humiliation on those condemned he argues but also served as theatrical instruction for the rest of society about the terrible price of transgression Through a careful pursuit of these inquiries Given elucidates medieval society's contribution to the modern apparatus of power
