### Reflections: Discovering Life in the Universe

**Descriptions:** This assessment is designed as a quick check of whether a student has actually mastered the performance-criteria for this chapter. It should be easy if they have. Keep in mind that these items will only be *helpfully* presented to selected topics from the chapters, intended to give a hint that will lead to more in-depth study.

11. The gas particles inside a lower balloon, causing it to expand, will be moving at a fast (faster/slow).

What if, instead the balloon should not expand at all. The gas particles would still move faster. They would still exert what would happen if the gas in the balloon were not allowed to expand at all. Remember that faster gas motion means higher temperature and that the faster one is, the warmer is temperature.
