The University of Phoenix is Americas largest accredited private University with over 180 campuses in 35 states nationwide. The University of Phoenix offers a host of undergraduate programs for the working adult. The program that interests me the most is the Bachelor of Science in Information Technology (BSIT). "The BSIT program is focused on the acquisition of theory and technical competencies associated with the information technology profession". The program is setup as such where full time professionals have the opportunity to attend school while tending to the needs of a growing family.

By assigning both group and individual assignments, the programs focus is to provide a unique learning style that is both academic and practical to real life work experiences. This is a distinctive approach to learning and is a different style from that of a traditional University. I was drawn to the University because of this distinctive approach and it is one of the aspects that intrigued me about the program. I started at the University of Phoenix in January 2004, and have not since regretted a minute of that decision. Becoming a student in the BSIT program has already proven to be an invaluable experience. I have since applied acquired knowledge from the programs course work to tasks encountered in the job field. My current position as a Maintenance Technician in the Semiconductor Industry requires me to troubleshoot hardware and software failures.

This assignment is broken up into three parts, first I will reflect upon where I was in my personal and professional life before I started the BSIT program. Next I will evaluate the growth I have experienced during my University of Phoenix program of study. Lastly I will analyze the impact of completing the University of Phoenix Bachelor's program and my current and future professional goals I have established for myself.

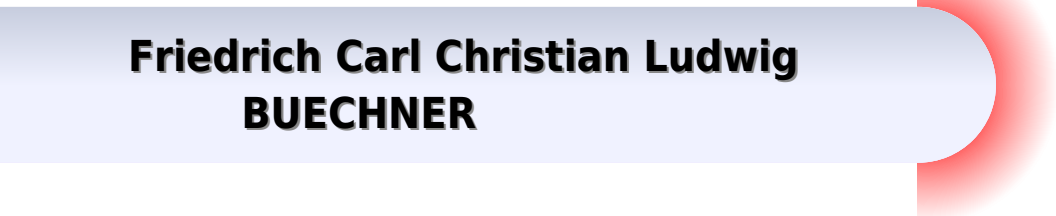

Past

In the past, I was of the opinion that having an education was for some people but not for all. Those who made the choice to obtain higher education did so as a personal decision for themselves, more power to those individuals. I knew that the chances to make more money would likely be in my favor and the probability to advance to a higher position is almost guaranteed in some cases. These two benefits and more could be obtained by earning a college degree. I have read studies reporting that people who had a college degree are more likely to be happier with their job responsibilities and more committed to their roles as an employee of the company. "The average family income for people who had only a high school diploma was \$52k a year verse the family income of people who had a college (bachelor's) degree was \$96k".

The prospect for me to aspire a college education was never a misconception, nor was it a question of the lack of finances available. In fact, I supported my wife as she earned her Bachelors Degree in Case Management at Arizona State University. She began her studies right out of high school while...

My Past Present Future Essay:

Past, Present, Future Johannes de Moor, H.R. van Rooy, 2021-11-22 In the politico religious history of the Deuteronomists past present and future mingle in an often inextricable way Long obsolete traditions which had been unacceptable to the Davidic dynasty were rediscovered and adapted to the aims of the Deuteronomists Personages of the past were condemned and blackened in the light of the new ideology whereas others were glorified and embellished as heroes of faith because their ideas suited the historians This inevitably raises the question whether the Bible can be trusted as a source book for writing a history of Israel Apparently not say scholars like T L Thompson P R Davies and N P Lemche In this volume a number of authors take up this challenge stating that the radical rejection of the biblical testimony in favour of a history based mainly on archaeology is ill advised Several contributions to this volume draw instructive parallels between the process of re writing the history of South Africa and the work of the Deuteronomists Four Essays on the Past, Present & Possible Future of the Distribution of the Black Population of South Africa Charles Edward Wickens Simkins, 1983 Essays on trends 1921 1980 in rural migration and geographic distribution of the black population in South Africa R discusses urbanization population growth demographic characteristics of urban population and rural population by age group sex and birthplace inaccuracy of census data impact of economic structure changes and influx control population policies etc includes a literature survey and projections to 2000 under scenarios of continued and abolished influx control Bibliography and references **Gender and Archiving: Past, Present, Future** Noortje Willems, Saskia Bultman, Sylvia Holla, 2017 This 37th volume of the Yearbook of Women s History focuses on the meaning and potential of archiving for enhancing gender equality and the position of women worldwide More than just storehouses of knowledge archives offer new ways for understanding the past debating the present and creating the future Focusing on both traditional and non traditional archival practices in various parts of the world the Yearbook of Women s History explores the meaning of archiving for women and women s history Besides investigating the feminist potential of the archive it also examines questions of erasure and forgetting While archives may have emancipatory or democratizing potential practices of discarding equally shape the histories that can be written and the stories that can be told The articles in this volume are alternated with descriptions of collections and institutes and the topics addressed cover a full range of archival theory and practice This volume has been produced by the editorial board of the Yearbook of Women s History in collaboration with Atria institute on gender equality and women s history in Amsterdam the Netherlands The Past, Present, and Future of England's Language William Marshall, 1878 **Chicago: past, present, future ...
