Kenya Secondary Examination English Paper 2013:

English as a Language of Teaching and Learning for Community Secondary Schools in Tanzania Elia Shabani

Mlilo, Mikael Mwashilindi, 2017-08-07 This book examines the challenges posed by English a foreign language as a language of teaching and learning for community secondary schools in Tanzania in terms of academic performance The book probes the necessity for having two languages of instruction in the Tanzanian educational system While Kiswahili the native language is predominantly understood by the majority of people the discussion in this book indicates that most students in community secondary schools in Tanzania are incompetent in understanding writing listening reading and speaking English a language they use in learning and doing their examinations especially in the early stages of their secondary studies The incompetence in the above mentioned skills is mostly caused by their inability to cope with the abrupt transition in the languages of instruction from their pre primary and primary school study Kiswahili to secondary school study English Moreover most teachers are unable to use the English language as a means to impart knowledge or facilitate learning to their students leading them to code switching and code mixing This book poses a challenge to countries whose students pass through a transition from one language of instruction to another in their educational systems helping them to make appropriate decisions in regard to the appropriate language of teaching and learning

Language Development and Social Integration of Students with English as an Additional Language Michael Evans, Claudia Schneider, Madeleine Arnot, Linda Fisher, Karen Forbes, Yongcan Liu, Oakleigh Welply, 2020-07-16 Given the current context of the experience of migration on schools in England and Europe and the competing policies and approaches to social integration in schools there is a need to understand the connection between language development and social integration as a basis for promoting appropriate policies and practices This volume explores the complex relationship between language education and the social integration of newcomer migrant children in England through an in depth analysis of case studies from schools in the East of England The authors set this evidence against the background of policy debates in the wider international setting including a critical discussion of assumptions underlying national narratives of mainstreaming and assimilation In the light of an absence of national guidelines for appropriate practice in schools the authors outline a model of inclusive pedagogy for English as an additional language EAL and a framework of home school communication to promote effective EAL parental engagement in schools

Bilingualism and Bilingual Education: Politics, Policies and Practices in a Globalized Society B. Gloria Guzmán Johannessen, 2019-01-14 This volume presents a multinational perspective on the juxtaposition of language and politics Bringing together an international group of authors it offers theoretical and historical constructs on bilingualism and bilingual education It highlights the sociocultural complexities of bilingualism in societies where indigenous and other languages coexist with colonial dominant and other prestigious immigrant languages It underlines the linguistic diaspora and expansion of English as the world s lingua franca and their impact on indigenous and other minority languages Finally it

features models of language teaching and teacher education This book challenges the existent global conditions of non dominant languages and furthers the discourse on language politics and policies It does so by pointing out the need to change the bilingual multilingual educational paradigm across nations and all levels of educational systems

Participation, learning, and equity in education: Can we have it all? Delavallade, Clara, Griffith, Alan, Shukla, Gaurav, Thornton, Rebecca, 2017-03-30 The United Nations Sustainable Development Goals have set a triple educational objective improving access to quality of and gender equity in education This study is the first to document the effectiveness of policies targeting all these objectives simultaneously We examine the impact of a multifaceted educational program delivered to 230 randomly selected primary schools in rural India on students participation and performance We also study the heterogeneity of this impact across gender and initial school performance and its sustainability over two years Although the program specifically targeted out of school girls for enrollment the learning component of the program targeted boys and girls equally We find that the program reduced gender gaps in school retention and improved learning during the first year of implementation However targeting different educational goals access quality and equity did not yield sustained effects on school attendance or learning nor did it bridge gender inequalities in school performance over the two year period
