

Histoire de l'art

Introduction :

L'**histoire de l'art** étudie les œuvres d'art à travers les âges pour tenter d'en comprendre leur sens. Cette matière a également pour objet l'exploration des conditions dans lesquelles les artistes, les architectes, etc., ont créé leurs œuvres. Ainsi, un cours sur l'**histoire de l'art** permet de saisir les contextes culturel, spirituel, idéologique, économique, théorique et social de l'art. Dans la majorité des cas, les cours portent sur la singularité des œuvres d'art, les différents styles, les écoles, les courants artistiques, les tendances de différentes époques et leurs liens avec des faits historiques, des événements politiques ou des mouvements sociaux.

Comment peut-on dire que l'histoire de l'art est avant tout le reflet de l'histoire des hommes, et que chaque mouvement artistique rencontre une époque, un environnement philosophique, politique ou spirituel bien particulier ?

La chronologie de l'histoire de l'art exige un type de mémoire très différent de celui de l'histoire des événements. En effet, l'élaboration d'une forme nouvelle demande du temps : si les événements se bousculent et provoquent le passage d'une époque à une autre, les idées des créateurs sont plus longues à se réaliser vu qu'elles se projettent dans l'espace. Le mot **style** désigne alors une qualité intellectuelle de l'artiste et du commanditaire qui déterminent un goût, une manière, une mode dans une époque particulière : l'artiste exprime ici par la forme, l'esprit d'une époque. À l'origine de la forme, il y a donc un esprit créateur qui donne à une époque une unité artistique. Toutefois, si la notion de style est utilisée pour le mobilier, les historiens de l'architecture préfèrent parler d'un mouvement, d'une période ou d'une École en particulier, plutôt que d'une classification stylistique extrêmement réductrice. En effet le XIX^e siècle, il n'existe plus de style particulier en architecture.

L'architecture est l'art de la conception et de la mise en forme d'espaces de vie : ceux d'une demeure, d'un établissement industriel, comme ceux d'espaces urbains. L'architecture est l'expression d'une époque, qui se révèle par l'intermédiaire de son style. Et, au premier coup d'œil, c'est bien le style d'un édifice qui permet de l'identifier et de le replacer dans son contexte historique et artistique.
