Thompson,1994 When Dr French Anderson researcher and physician at the National Institutes of Health assembled the team that injected a young girl from the suburbs of Cleveland with a special solution of white blood cells he ushered in a brave new world of science and medicine Those cells were genetically altered or corrected to produce a critical enzyme necessary to create a fully functioning immune system which his young patient was born without The age of human gene therapy had arrived Along with it will come the molecular cures for cancers and heretofore incurable conditions such as cystic fibrosis perhaps even AIDS *Correcting the Code* is the eminently readable and remarkable story of the handful of doctors and

researchers who deeply believed they could break one of the last barriers in medicine repairing human genes that cause illnesses Even before Watson and Crick successfully modeled DNA the idea of changing the genetic composition of humans had long been a scientific Holy Grail despite the stain of eugenics and the public phobia of genetic engineering gone amok Over the last twenty years as the pace of research has accelerated laboratories have entered a sort of race to claim the final breakthrough to be the first to successfully treat a human patient The story of that frenzied research contains the great scientific upheavals in the field of biology including a new understanding of how specific molecules interact to compose living

cells that make up the human body This is the riveting account of how a great scientific puzzle finding a way to repair actual human molecules was solved of the intellectual and political milieu in which it occurred and of the remarkable people who committed their lives to the task Anderson Michael Blaese Ken Culver Richard Mulligan and others Author Larry Thompson makes the seemingly indecipherable world of genetic science understandable to the general reader Furthermore he unravels a dramatic story of inspired invention frustrating dead ends the clash of egos the fits and starts of innovation that reveal how science is conducted in the real world BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved     The British Journal of Photography ,1987     Broadcasting: Yearbook-marketbook Issue ,1940     *Supervisory Management* ,1978     *The Parliamentary Debates (Hansard)*.
