Diefenderfer, Roger B. Nelsen, 2010-12-31 The Calculus Collection is a useful resource for everyone who teaches calculus in
high school or in a 2 or 4 year college or university It consists of 123 articles selected by a panel of six veteran high school
teachers each of which was originally published in Math Horizons MAA Focus The American Mathematical Monthly The
College Mathematics Journal or Mathematics Magazine The articles focus on engaging students who are meeting the core
ideas of calculus for the first time The Calculus Collection is filled with insights alternate explanations of difficult ideas and
suggestions for how to take a standard problem and open it up to the rich mathematical explorations available when you
encourage students to dig a little deeper Some of the articles reflect an enthusiasm for bringing calculators and computers
into the classroom while others consciously address themes from the calculus reform movement But most of the articles are
