Low Riders In Space 1:

Lowriders in Space Cathy Camper, 2014-11-01 Lupe Impala El Chavo Flapjack and Elirio Malaria love working with cars You name it they can fix it But the team's favorite cars of all are lowriders cars that hip and hop dip and drop go low and slow bajito y suavecito The stars align when a contest for the best car around offers a prize of a trunkful of cash just what the team needs to open their own shop Ay chihuahua What will it take to transform a junker into the best car in the universe Striking unparalleled art from debut illustrator Raul the Third recalls ballpoint pen and Sharpie desk drawn doodles while the story is sketched with Spanish ink with science facts and colored with true friendship With a glossary at the back to provide definitions for Spanish and science terms this delightful book will educate and entertain in equal measure Low Rider, 2007 Machines of Youth Gary S. Cross, 2018-05-04 For American teenagers getting a driver's license has long been a watershed moment separating teens from their childish pasts as they accelerate toward the sweet sweet freedom of their futures With driver's license in hand teens are on the road to buying and driving and maybe even crashing their first car a machine which is home to many a teenage ritual being picked up for a first date parking at a scenic overlook or blasting the radio with a gaggle of friends in tow So important is this car ride into adulthood that automobile culture has become a stand in a shortcut to what millions of Americans remember about their coming of age *Machines of Youth* traces the rise and more recently the fall of car culture among American teens In this book Gary S Cross details how an automobile obsession drove teen peer culture from the 1920s to the 1980s seducing budding adults with privacy freedom mobility and spontaneity Cross shows how the automobile redefined relationships between parents and teenage children becoming a rite of passage producing new courtship rituals and fueling the growth of numerous car subcultures Yet for teenagers today the lure of the automobile as a transition to adulthood is in decline Tinkerers are now sidelined by the advent of digital engine technology and premolded body construction while the attention of teenagers has been captured by iPhones video games and other digital technology And adults have become less tolerant of teens on the road restricting both cruising and access to drivers licenses Cars are certainly not going out of style Cross acknowledges but how upcoming generations use them may be changing He finds that while vibrant enthusiasm for them lives on cars may no longer be at the center of how American youth define themselves But for generations of Americans the modern teen experience was inextricably linked to this particularly American icon **Vehicles** David Lipset, Richard Handler, 2014-08-01 Metaphor as an act of human fancy combines ideas in improbable ways to sharpen meanings of life and experience Theoretically this arises from an association between a sign for example a cattle car and its referent the Holocaust These sign vehicles serve as modes of semiotic transportation through conceptual space Likewise on the ground vehicles can be rich metaphors for the moral imagination Following on this insight *Vehicles* presents a collection of ethnographic essays on the metaphoric significance of vehicles in different cultures Analyses include canoes in Papua New Guinea pedestrians and airplanes in North America lowriders

among Mexican Americans and cars in contemporary China Japan and Eastern Europe as well as among African Americans in the South Vehicles not only carry people around but also carry how they are understood in relation to the dynamics of culture politics and history
