For courses in Chemistry: This package includes MasteringChemistry Building 21st Century Data Analysis and Problem Solving Skills in Modern Chemistry. The Fourth Edition of Nivaldo Tro's Chemistry: A Molecular Approach reinforces students' development of 21st-century skills, including data interpretation and analysis, problem solving, and quantitative reasoning, applying conceptual understanding to new situations, and peer-to-peer collaboration. Nivaldo Tro presents chemistry visually through multi-level images: macroscopic, molecular, and symbolic representations, helping students see the connections between the world they see around them, macroscopic; the atoms and molecules that compose the world, molecular; and the formulas they write down on paper, symbolic. The benefits of Dr. Tro's problem-solving approach are reinforced through digital Interactive Worked Examples that provide students with an office-hour type of environment and expanded coverage on the latest developments in chemistry. New Key Concept Videos explain difficult concepts, while new end-of-chapter problems, including Group Work questions and Data Interpretation and Analysis questions, engage students in applying their understanding of chemistry. The revision has been constructed to easily incorporate material for instructors and students to engage in Before, During, and After class activities.

Personalize Learning with MasteringChemistry: MasteringChemistry from Pearson is the leading online homework tutorial and assessment system designed to improve results by engaging students before, during, and after class with powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective content before class and encourage critical thinking and retention with in-class resources such as Learning Catalytics. Students can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions. Mastering brings learning full circle by continuously adapting to each student and making learning more personal than ever before, during and after class.

Tro, 2014-01-06 NOTE Books a la Carte are unbound three hole punch versions of the textbook This lower cost option is easy to transport and comes with same access code or media that would be packaged with the bound book XXXXXXXXXXXXXXXXXXXX Bestselling author Nivaldo Tro has always believed the behavior of matter is determined by the properties of molecules and atoms to be the most important discovery in scientific knowledge This idea is the entire organizing factor for his seminal new text Chemistry Structure and Properties Dr Tro emphasizes the relationship between structure and properties establishes a unique atoms first approach to teaching chemistry by presenting atomic and bonding theories early in the text and stresses key themes throughout The book is organized to present chemistry as a logical cohesive story from the microscopic to the macroscopic so students can fully grasp the theories and framework behind the chemical facts Every topic has been carefully crafted to illustrate that the relationship between structure and properties is the thread that weaves all of chemistry together While developed independently of other Tro texts Chemistry Structure and

Properties incorporates the author's vivid writing style, chemical rigor, dynamic multi-level images, and tested features. His consistent conceptual focus and step-by-step problem-solving framework encourages you to think through processes rather than simply memorize content. Interactive media within MasteringChemistry complements the book's problem-solving approach, thus creating a comprehensive program that enables you to learn both in and out of the classroom. This program presents a better teaching and learning experience for you. Personalized learning with MasteringChemistry: This online homework tutorial and assessment program is designed to improve results by helping you quickly master concepts. You'll benefit from self-paced tutorials featuring specific wrong-answer feedback and hints that emulate the office-hour experience. Developed with a central theme and by a teaching community: As part of a community that teaches with the understanding that matter is composed of particles and the structure of those particles determines the properties of matter, Dr. Tro took great lengths in the text to ensure that everything from organization, art, and pedagogy reinforce this theme. The result of this emphasis is that the topic order has been constructed to make key connections earlier, stronger, and more often than the traditional approach. Linking conceptual understanding with problem-solving skills: Throughout each chapter, numerous Conceptual Connections encourage comprehension of the most complex concepts, while a consistent step-by-step framework in the worked examples allows you to think logically through the problem-solving process. Visualizing and understanding chemistry: Revolutionary multipart images illustrate and reinforce the theme of the text and allow you to see and experience the molecules responsible for the structures and properties of matter.
