Dynamics of Transformation Hiroyuki Takeshima, Kipo Jimah, Shashidhara Kolavalli, Xinshen Diao, Rebecca Lee Funk, 2013-06-21 Agriculture in African South of the Sahara SSA can be transformed if the right public support is provided at the initial stage and it can sustain itself once the enabling environment is put in place Successes are also specific to the location of projects In Ghana interesting insights are obtained from the successful Kpong Irrigation Project KIP contrasted with other major irrigation projects in the country Through an exploratory review we describe how a productive system evolved in KIP and how public support for critical aspects accumulation of crop husbandry knowledge selection and supply of profitable varieties and mechanization of land preparation might have created a productive environment that the private sector could enter and fill in the market for credit processing mechanization of harvesting and other institutional voids that typically have constrained agricultural transformation in the rest of SSA Slower progress in other projects also raises a number of questions We conclude by summarizing those questions and some testable hypotheses for future research

Patwardhan, 1989-11-30 **The Publishers' Trade List Annual** ,1985 **Language Standardization and Language Variation in Multilingual Contexts** Nicola McLelland, Hui Zhao, 2021-11-24 This important contribution to the sociolinguistics of Asian languages breaks new ground in the study of language standards and standardization in two key ways in its focus on Asia with particular attention paid to China and its neighbours and in the attention paid to multilingual contexts The chapters address various kinds of sometimes hidden multilingualism and examine the interactions between multilingualism and language standardization offering a corrective to earlier work on standardization which has tended to assume a monolingual nation state and monolingual individuals Taken

together the chapters in this book thus add to our understanding of the ways in which multilingualism is implicated in language standardization as well as the impact of language standards on multilingualism The introduction Chapter 6 and Chapter 8 are free to download as open access publications under a CC BY NC licence You can access them here
