A treatise on the construction, rigging, and handling of model yachts, ships and steamers, with remarks on cruising and racing yachts, and the management of open boats; also lines for various models and a cutter yacht Tyrrel E. Biddle, 1883 *A Treatise on the Construction, Rigging, & Handling of Model Yachts, Ships & Steamers* Tyrrel E. Biddle, 1883 Popular Science, 1928-02 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better

Historic Ship Models Wolfram zu Mondfeld, 2005-04 The United States and Europe Whether you're a beginner or an expert and whether you have hours to spend on a project or years you'll find money and time saving ideas on every page Book jacket

Sailing Ships from Plastic Kits Kerry Jang, 2024-10-30 Models of sailing ships with their towering masts and billowing sails have always held a special fascination for model makers because they capture all the romance of the sea shipboard life and a fighting spirit However many would-be modelers are discouraged by the inherent complexity of the subject especially the masts and rigging as well as the often sumptuous decoration Plastic kit manufacturers were quick to capitalize on this interest and produced kits that were advertised as easy and reasonably quick to assemble featuring ready-made detail that is easily tackled by modelers of varying skills and ages with the promise of a good result Plastic sailing ship kits are affordable especially in comparison to wooden ship kits and building a fleet of the most famous ships in history is easily achieved Despite their ease of assembly plastic models of sailing ships like the ships themselves remain complicated to build Manufacturers devised several simplifications of the most difficult aspects such as molding the lower upper and topmasts in one piece offering preformed molded plastic shrouds and ratlines or sails in vacuum formed plastic However modelers have long complained that these simplifications the physical limitations of injected plastic moldings and the very medium of styrene plastic itself have resulted in often crudely detailed and unrealistic finished models This book is the remedy It describes and demonstrates techniques unique to plastic sailing ship models that overcome these limitations

allowing the construction of authentic and personally satisfying models Each modeler has a different expectation for their model Some will want a simple build with some straightforward refinements whereas others will want a more detailed build that takes advantage of the many new aftermarket items and there are those who seek the most accurate and detailed replica possible Sailing Ships from Plastic Kits aims to give every modeler regardless of skill and experience a range of fundamental and advanced techniques to choose from when transforming a plastic kit into an authentic sailing ship model Heavily illustrated in color throughout this book is an ideal addition to the purchase of any plastic ship kit The Art of Rigging George Biddlecombe,1990-01-01 The best manual ever produced on rigging the sailing ship indispensable for serious model builders Terms and phrases onshore operations rigging brigs yachts small vessels much more Introduction 17 plates

Building Ship Models George B. Douglas,Joseph T. Higgins,1998-01-12 Clearly written text detailed illustrations and full size working plans provide novices and experienced model builders with all the information they need to create exact replicas of two 19th century sailing ships the Benjamin F Packard a classic American clipper and the Alice Mandell a famous whaler The one volume edition of two rare model building manuals also devotes chapters to ship s rigging ancient and modern and abundant information on clippers and old time whaling ships A treasury of essential information for hobbyists model builders and devotees of the great age of sail The Ship Model Builder's Assistant Charles Gerard Davis,1926
