

## INSTALLATION

### MOUNTING CORD

QSK200F type and QSK200F type sets are supplied without a mounting cord. Order an NE-D50QE Cord for use with systems wired for Northern Telecom standards for 50-button sets. Order an NE-D50QU Cord for use with systems wired for Western Electric or ITT standards.

The appropriate color code must be added to the part number of the mounting cord, e.g. NE-D50QJ-20 warm white or NE-D50QJ-35 chameleon gray.

### MOUNTING CORD INSTALLATION

- (a) Place the telephone set upside down on a flat surface, remove the slide from the base by pressing on the back of the set beside the cord entrance hole and sliding the slide to the rear of the set.
- (b) Insert the cord retainer in the hole in the chassis.
- (c) Press the wiring of the amphenol connector to clear the slide.
- (d) Replace the slide in the set.

### OPTIONAL FACEPLATE COLORS

The chameleon gray sets are factory equipped with a brown faceplate and warm white sets with a sand faceplate. Faceplates are available in the following colors and may be ordered separately by replacing the last two digits of the part number with the appropriate color code, e.g. PQ515426 (Brown).

Brown	—26
Sand	—32
Deep Blue	—25
Deep Green	—33
Purple	—34
Black	—03

### DESIGNATION TABS

Designation tabs (PD514516) are used on the NE-447 type keys for button designation. Squeeze the sides of the button caps and pull upwards to remove them from the key. Insert the designation tabs and replace the caps.

### CONNECTIONS

Connect the telephone set using an NE-A25B or equivalent connector cable. Refer to Conductor Assignment Tables for NE or WE and ITT connections.
